Last Date to Apply: September 30, 2025

Job Summary:

We are looking for passionate and self-motivated .NET developers to join our MIS department. The ideal candidate should be eager to develop high-quality software solutions and contribute to a dynamic team environment. The primary responsibility of this role is to design, develop, and maintain applications based on business requirements while collaborating with other team members on various infrastructure layers.

Job Description:

- Design, develop, and maintain applications using .NET MVC, Core, Web API, and C#
- Work on RESTful Web APIs for integration with various front-end applications.
- Develop and optimize SQL queries, stored procedures, and database indexing (Oracle/SQL Server preferred).
- Implement best practices in Object-Oriented Programming (OOP), microservices architecture, and design patterns.
- Work on basic mobile application development using Flutter (a plus).
- Troubleshoot, debug, and resolve technical issues.

Job Specification:
Education Qualification:

- **BS/MCS/MS** in Computer Science, Software Engineering, or a related field.

Relevant Experience:

- Fresh -1 years of relevant experience.

Essential Skills:

- NET Core, ASP.NET, C#, Web API
- HTML5, JavaScript, jQuery, Web Services (REST, SOAP)
- SQL Server/Oracle (queries, views, stored procedures, indexing, optimization)
- Object-Oriented Programming (OOP), software architecture, design patterns
- Basic knowledge of Flutter for mobile development (preferred)
- Strong analytical and problem-solving skills

Interested candidates please drop your CVs at teamhr@agico.com.pk by September 30, 2025. Please mention position title in email subject.
