# CHAIRMAN'S REVIEW

---

## **Esteemed Shareholders,**

It gives me great pleasure to present the performance review of Askari General Insurance Company Limited for the year ended 31 December 2025.

The Company continued its growth trajectory with resilience and discipline, supported by the strategic oversight of the Board of Directors and the dedication of management. In 2025, we achieved the highest-ever Gross Premium Written of Rs. 7.6 billion, reflecting a strong 17% increase over the previous year. This growth underscores the effectiveness of our underwriting strategy, expanding market presence, and operational execution.

The year 2025 witnessed improving macroeconomic indicators, including a decline in inflation and easing interest rates, which supported overall business activity. At the same time, the industry faced significant headwinds arising from unexpected claims due to hailstorms and floods. Despite these challenges, prudent claims management and disciplined, risk-based underwriting enabled the Company to report an underwriting profit of Rs. 221 million, representing a 12% increase over the preceding year.

Disciplined expense control, selective risk acceptance, and strategic investment decisions further contributed to a record Profit Before Tax of Rs. 1.12 billion. Accordingly, earnings per share stood at Rs. 9.66 on a basic basis and Rs. 8.69 on a diluted basis, reflecting the impact of the right issue completed during the year.

In order to support this sustained growth and to meet the enhanced minimum paid-up capital requirements, the Company successfully completed the right issue of Rs. 920 million during the last quarter of 2025. As a result, the paid-up capital increased from Rs. 719 million to Rs. 1.006 billion. The strengthened capital base not only ensures regulatory compliance but will also enhance underwriting capacity, support the revision of reinsurance limits, and position the Company for long-term expansion. The proceeds will be deployed in accordance with the Board-approved investment policy to generate sustainable returns.

In line with our continued focus on shareholder value, the Board, in addition to already paid interim cash dividend of 25% (Rs. 2.50 per share), has recommended a final cash dividend of 25% (Rs 2.5 per share) for the year 2025.

We extend our sincere gratitude to our valued clients and shareholders for their continued trust and confidence. We also acknowledge the support of the Securities and Exchange Commission of Pakistan, the Insurance Association of Pakistan, the Pakistan Stock Exchange, and our valued reinsurers.

With strengthened capital, sound governance, and a committed team, Askari General Insurance remains well-positioned to capture emerging opportunities, manage risks effectively, and deliver sustained value in the years ahead.

Thank you.

## چیئر مین کا جائزہ 2025

عسکری جنرل انشورنس کمپنی لمیٹڈ

حدود میں نظر ثانی کی معاونت، اور طویل المدتی توسیع کے لیے کمپنی کو مؤثر طور پر پوزیشن کرتی ہے۔ شدہ فنڈز کو بورڈ سے منظور شدہ سرمایہ کاری پالیسی کے مطابق استعمال کیا جائے گا تاکہ پائیدار منافع کیا جاسکے۔

شیئر ہولڈروں پر ہماری مسلسل توجہ کے تسلسل میں، بورڈ نے پہلے سے ادا شدہ عبوری نقد منافع (Rs. 2.50 فی شیئر) کے علاوہ، سال 2025 کے لیے حتمی نقد منافع 25% (Rs. 2.50) کی سفارش بھی کی ہے۔

ہم اپنے معزز صارفین اور شیئر ہولڈرز کے مسلسل اعتماد اور بھروسے پر دلی شکر یہ ادا کرتے ہیں۔ ہم اینڈ آکسیج کمیشن آف پاکستان، انشورنس ایسوسی ایشن آف پاکستان، پاکستان اسٹاک ایکسچینج، اور اری انشوررز کی معاونت کو بھی سراہتے ہیں۔

مضبوط سرمایہ، مستحکم گورننس، اور ایک پر عزم ٹیم کے ساتھ، General Insurance ایگریمنٹ کے تحت، ہمارے مواقع سے فائدہ اٹھانے، مؤثر رسک مینجمنٹ، اور آنے والے سالوں میں پائیدار منافع کرنے کے لیے بہترین پوزیشن میں ہے۔

شکریہ۔

16 مارچ 2026

مجھے یہ پیش کرتے ہوئے انتہائی خوشی محسوس ہو رہی ہے کہ میں 31 دسمبر 2025 کو ختم ہونے والے سال کے لیے عسکری جنرل انشورنس کمپنی لمیٹڈ کی کارکردگی کا جائزہ پیش کر رہا ہوں۔

کمپنی نے استحکام اور نظم و ضبط کے ساتھ اپنی ترقی کا تسلسل برقرار رکھا، جسے بورڈ آف ڈائریکٹرز کی ترویجی نگرانی اور انتظامیہ کی لگن کی مکمل حمایت حاصل رہی۔ سال 2025 میں، ہم نے مجموعی پریئم تخم تحریر شدہ (Gross Premium Written) کی بلند ترین سطح Rs. 7.6 ارب حاصل کی، جو گزشتہ سال کے مقابلے میں 17% اضافہ ظاہر کرتی ہے۔ یہ ترقی ہماری انڈر رائٹنگ حکمت عملی، مارکیٹ میں بڑھتی ہوئی موجودگی، اور آپریشنل نفاذ کی موثریت کی عکاسی کرتی ہے۔

سال 2025 کے دوران معاشی اشاریوں میں بہتری دیکھنے میں آئی، جس میں مہنگائی میں کمی اور شرح سود میں نرمی شامل ہے، جس نے مجموعی کاروباری سرگرمیوں کو سہارا فراہم کیا۔ تاہم، اسی دوران صنعت کو ژالہ باری اور سیلاب کے باعث غیر متوقع کلیمز جیسے اہم چیلنجز کا بھی سامنا رہا۔ ان حالات کے باوجود محتاط کلیمز مینجمنٹ اور نظم و ضبط پر مبنی رسک میڈیٹیشن کے ذریعے کمپنی Rs. 221 ملین کا انڈر رائٹنگ منافع رپورٹ کرنے میں کامیاب رہی، جو گزشتہ سال کے مقابلے میں 12% اضافہ ظاہر کرتا ہے۔

اخراجات پر مؤثر کنٹرول، منتخب بنیادوں پر رسک قبولیت، اور اسٹریٹجک سرمایہ کاری کے فیصلوں نے مزید ریکارڈ قبل از ٹیکس منافع Rs. 1.12 ارب کے حصول میں کردار ادا کیا۔ اس کے مطابق، فی شیئر آمدنی بنیادی بنیاد پر Rs. 9.66 اور ڈائریکٹوریٹ بنیاد پر Rs. 8.69 رہی، جو سال کے دوران مکمل ہونے والے رائٹ ایڈجسٹمنٹ کے اثرات کی عکاسی کرتی ہے۔

مسلسل ترقی کی معاونت اور کم از کم ادا شدہ سرمایہ کی بڑھتی ہوئی ریگولیشنری ضروریات کو پورا کرنے کے لیے، کمپنی نے سال 2025 کی آخری سہ ماہی میں کامیابی کے ساتھ Rs. 920 ملین کا رائٹ ایڈجسٹمنٹ کیا۔ اس کے نتیجے میں، ادا شدہ سرمایہ Rs. 719 ملین سے بڑھ کر Rs. 1.006 ارب ہو گیا۔ مضبوط

# PRESIDENT'S MESSAGE

---

Dear Valued Shareholders,

It is a privilege to connect with you as we reflect on FY 2025 and look ahead to 2026.

The year 2025 marked a period of improving economic stability, with lower interest rates and easing inflation supporting a more predictable business environment. Despite increased claims arising from hailstorms and floods, disciplined underwriting and prudent claims management enabled the Company to deliver an underwriting profit of Rs. 216 million, representing a 12% growth over the previous year.

Supported by sound investment decisions and careful expense management, we achieved a record Profit Before Tax of Rs. 1.12 billion — a 5% increase year-on-year. These results reflect the strength of our risk framework, the quality of our portfolio, and the commitment of our teams across the organization.

During the year, we also successfully completed a right issue, increasing our paid-up capital from Rs. 719 million to Rs. 1.006 billion. This strengthened capital base enhances our underwriting capacity and positions us to pursue growth opportunities with greater resilience and confidence.

As we step into 2026, the regional geopolitical environment has become more uncertain following the outbreak of conflict involving the United States and Iran. This development has introduced volatility in global markets and commodity prices. While the full economic implications continue to evolve, we remain vigilant, financially strong, and focused on disciplined underwriting and robust reinsurance arrangements to safeguard your Company's stability.

We are equally committed to strengthening digital capabilities, improving service delivery, and enhancing operational efficiency to create sustained value for you — our shareholders.

On behalf of the management team, I thank you for your trust and continued support. We remain confident in our strategy and steadfast in our commitment to delivering sustainable growth and long-term value.

Warm regards,

**Mr. Abdul Waheed**

President & Chief Executive

# DIRECTORS' REPORT

Unconsolidated financial information for the year 2025

On behalf of the Board of Directors, we are pleased to present the Directors' Report of Askari General Insurance Company Limited (the Company) along with Audited Unconsolidated Financial Statements and the Auditors' Report thereon for the year ended December 31st, 2025.

## ECONOMIC REVIEW

Pakistan's economy operated within a complex macroeconomic environment during FY2025. While overall GDP growth remained subdued and export momentum was limited, early signs of recovery in Large-Scale Manufacturing (LSM) provided some industrial support. Workers' remittances remained resilient, and relative exchange rate stability contributed to improved external balance management.

Monetary easing, with a cumulative 250 basis points reduction in the policy rate, provided relief to businesses and supported liquidity conditions. Continued reform measures and the successful completion of IMF program reviews enhanced Pakistan's external credit standing and reinforced investor confidence.

However, severe monsoon floods across Punjab, Khyber Pakhtunkhwa, and parts of Kashmir significantly impacted agriculture, infrastructure, and insured assets, while geopolitical tensions and border security developments disrupted trade flows and intensified inflationary pressures.

Within this environment, the insurance sector faced heightened claims volatility alongside improved investment market conditions. The Company navigated these dynamics effectively, leveraging disciplined underwriting and enhanced equity exposure to deliver an increase in investment income and the ultimate profits.

## AGICO in 2025

The Company delivered positive financial performance during 2025, underwriting a Gross Premium of Rs. 7.6 billion, including Rs. 1.28 billion from Window Takaful Operations (2024: Rs. 6.5 billion, including Rs. 1.08 billion from Window Takaful Operations). Investment and other incomes recorded a growth of 6%, further strengthening the overall profitability of the Company. Consequently, the Company achieved a Profit Before Tax of Rs. 1,141 million (2024: Rs. 1,060 million), reflecting sustained operational momentum and disciplined financial management.

The Company successfully completed a 40% right issue at Rs. 32 per share, including a premium of Rs. 22 per share, during the year.

The earnings per share (EPS) of the Company, after giving effect to the Right Issue of Rs. 920 million undertaken during the year, stood at Rs. 8.69 per share (2024 – Restated: Rs. 8.31 per share). For FY2024, the Company had previously reported an EPS of Rs. 9.12 per share, which has been restated to reflect the impact of

the Right Issue. Had the additional shares not been issued during the year, the EPS for FY2025 would have been Rs. 9.66 per share, demonstrating the underlying strength of the Company's earnings performance.

#### SEGMENT WISE PERFORMANCE ANALYSIS

The segment wise performance analysis for each class of business is as follows:

##### Accident & Health

The Accident & Health segment continued its growth trajectory during the year, registering a 23% increase in premiums (inclusive of Takaful contribution) and maintaining its position as the largest contributor to the Company's business. Gross premium under this segment amounted to Rs. 2,683 million (inclusive of Takaful) compared to Rs. 2,189 million in 2024, representing 35% of the Company's total premiums.

However, contribution margins from the conventional business declined to Rs. 58 million (2024: Rs. 86 million), primarily due to a higher loss ratio arising from claims associated with a few high-value clients during the year.

##### Motor

The Motor segment maintained stable growth, recording a 20% increase in premiums (inclusive of Takaful contribution). Gross premiums reached Rs. 1,903 million (inclusive of Takaful contribution) compared to Rs. 1,587 million in 2024, representing 25% of the Company's total business.

Contribution margins from the conventional business improved significantly to Rs. 691 million (2024: Rs. 567 million), primarily driven by a notable increase in auto financing activity during the year, coupled with effective claims management and underwriting discipline.

##### Fire & Property Damage

The segment recorded gross premium of Rs. 1,405 million (inclusive of Takaful contribution) during 2025 compared to Rs. 1,210 million in 2024, reflecting a 16% growth over the same period last year (SPLY). This segment accounted for 18% of the Company's total gross premium (inclusive of Takaful contribution) for the year.

However, the contribution margin from the conventional business declined to Rs. 127 million (2024: Rs. 143 million), primarily due to unexpected losses experienced within the segment during the year.

##### Marine, Aviation & Transport

The segment generated gross premium of Rs. 557 million (inclusive of Takaful contribution) during the year compared to Rs. 563 million in 2024, representing 7% of the Company's total business. While gross premiums remained largely stable, the Company was able to improve pricing discipline during the year, which positively impacted profitability.

Accordingly, contribution margins from the conventional business increased to Rs. 117 million (2024: Rs. 77 million), reflecting improved underwriting performance.

##### Miscellaneous

This segment comprises engineering, bond, crop, travel, and other miscellaneous insurance lines. During 2025, the segment accounted for 14% of the Company's underwritten business, with gross premium underwritten amounting to Rs. 1,070 million (inclusive of Takaful contribution) compared to Rs. 963 million in 2024.

The contribution margin from the conventional business stood at Rs. 214 million (2024: Rs. 247 million). The decline in margins compared to FY2024 was primarily attributable to higher claims incurred during the year, particularly arising from flood-related losses.

##### Investment, Rental and other Income

Investment and other income increased by 6% to Rs. 803 million in 2025, compared to Rs. 760 million in 2024. This growth was primarily driven by the positive momentum in the KSE-100 Index, along with effective portfolio management, which enabled the Company to realize improved investment gains during the year.

During 2025, the Company increased its exposure to equity investments and maintained an active portfolio rebalancing strategy, allowing it to capitalize on favorable market conditions while optimizing overall investment returns.

# DIRECTORS' REPORT

## WINDOW TAKAFUL OPERATIONS

The Window Takaful Operations (WTO) continued to demonstrate steady growth in both business volume and profitability, and the Company expects this positive trend to persist in the coming years.

During 2025, written contributions from WTO amounted to Rs. 1,279 million, compared to Rs. 1,082 million in 2024, reflecting continued expansion of the Takaful portfolio. The profit from the Operator's Fund increased to Rs. 151 million in 2025, as against Rs. 136 million in 2024.

The growth in contributions and profitability of the Takaful operations was driven by broadly similar factors that supported the performance of the conventional insurance portfolio, including business expansion and improved operational management.

## RIGHT ISSUE (R-5)

During the last quarter of 2025, the Company successfully completed a Right Issue of Rs. 920 million through the issuance of approximately 28 million ordinary shares at Rs. 32 per share, including a share premium of Rs. 22 per share.

The proceeds of the Right Issue will be deployed in accordance with the Board-approved Investment Policy, strengthening the Company's capital base and enhancing its underwriting capacity. The augmented equity position will also enable the Company to optimize operational performance, particularly in view of the anticipated revision of reinsurance retention limits during FY 2026.

This situation has broadened into a significant regional confrontation involving multiple states and non-state actors, contributing to

# DIRECTORS' REPORT

Unconsolidated financial information for the year 2025

increased volatility in energy markets, supply chains, and investor sentiment.

Although the direct impact on Pakistan's domestic economic environment remains to be fully determined, risks associated with global commodity price instability and potential shifts in capital flows warrant attentive monitoring. Against this backdrop, the Company continues to prioritize prudent risk management, operational resilience, and capital strength to navigate potential external shocks. Our focus remains on delivering sustainable value to shareholders through disciplined execution of strategic initiatives, while adapting proactively to the evolving macroeconomic and geopolitical landscape.

## ACKNOWLEDGMENTS

We would like to take this opportunity to express our sincere gratitude to our regulators and industry institutions, including the Insurance Association of Pakistan (IAP), for their continued guidance and support to the insurance sector. We also extend our appreciation to our valued reinsurers and other stakeholders for their continued trust and confidence in the Company. Equally, the Board acknowledges the dedication and hard work of our employees whose commitment remains instrumental in driving the Company's sustained growth and performance.

In particular, the Board wishes to recognize certain progressive regulatory support during the year that has positively supported corporate growth and capital market development. In this regard, the Board of Directors places on record its sincere appreciation

for the proactive regulatory reforms introduced by the Securities and Exchange Commission of Pakistan (SECP) during 2025 in relation to the issuance of right shares by listed companies. The amendments to the Companies (Further Issue of Shares) Regulations significantly streamlined procedural requirements and reduced the overall timelines for completion of right issues. These facilitative measures enabled the Company to successfully complete its right share issuance within the 2025 financial year, thereby enhancing its paid-up capital to Rs. 1 billion. Had the previous regulatory timeframes remained in place, completion of the capital increase would have extended beyond 2025, potentially deferring the Company's growth and strategic initiatives. The Board acknowledges and commends SECP's constructive and business-friendly approach, which continues to strengthen Pakistan's capital market framework and support corporate growth.

## ڈائریکٹر کی رپورٹ

### سال 2025 کے لیے غیر مربوط مالی معلومات

بالخصوص، بورڈ سال کے دوران بعض مثبت ریگولیٹری اقدامات کو بھی تسلیم کرنا چاہتا ہے جنہوں نے کارپوریٹ ترقی اور کیمپل مارکیٹ کی ترقی میں معاونت فراہم کی۔ اس ضمن میں، بورڈ آف ڈائریکٹرز سال 2025 کے دوران سیکورٹیز اینڈ ایکسچینج کمیشن آف پاکستان (SECP) کی جانب سے لسٹڈ کمپنیوں کے رائٹ شیئرز کے اجراء سے متعلق متعارف کرائی گئی فعال ریگولیٹری اصلاحات کو ریکارڈ پر سہاہتا ہے۔ کمپنیز (Further Issue of Shares) ریگولیشنز میں ترامیم کے ذریعے طریقہ کار کو نمایاں طور پر سادہ بنایا گیا اور رائٹ ایشوز کی تکمیل کے لیے درکار مجموعی وقت کو کم کیا گیا۔ ان سہولت بخش اقدامات کے نتیجے میں کمپنی مالی سال 2025 کے اندر اپنے رائٹ شیئرز کے اجراء کو کامیابی سے مکمل کرنے میں کامیاب رہی، جس سے اس کا ادا شدہ سرمایہ بڑھ کر 1 ارب روپے ہو گیا۔ اگر سابقہ ریگولیٹری ٹائم لائنز برقرار رہتیں تو سرمایہ میں اضافہ 2025 سے آگے بڑھ سکتا تھا، جس سے کمپنی کی ترقی اور ترویجی اقدامات میں تاخیر کا امکان تھا۔ بورڈ SECP کے تعمیری اور کاروبار دوست رویے کو سراہتا ہے، جو پاکستان کی کیمپل مارکیٹ کو مضبوط بنانے اور کارپوریٹ ترقی کو فروغ دینے میں اہم کردار ادا کر رہا ہے۔

ہیں۔ اس پس منظر میں، کمپنی ممکنہ بیرونی جھگڑوں سے نمٹنے کے لیے محتاط رسک مینجمنٹ، آپریشنل مضبوطی اور سرمایہ جاتی استحکام کو ترجیح دیتی رہے گی۔ ہماری توجہ ترویجی اقدامات کے منظم نفاذ کے ذریعے شیئرز ہولڈرز کے لیے پائیدار قدر کی فراہمی پر مرکوز رہے گی، جبکہ بدلتے ہوئے معاشی اور جغرافیائی و سیاسی ماحول کے مطابق پیشگی طور پر خود کو ہم آہنگ کیا جائے گا۔

#### اعترافات (Acknowledgments)

ہم اس موقع پر اپنے ریگولیٹرز اور صنعتی اداروں، بشمول انشورنس ایسوسی ایشن آف پاکستان (IAP)، کے انشورنس شعبے کے لیے مسلسل رہنمائی اور معاونت پر دلی تشکر کا اظہار کرتے ہیں۔ ہم اپنے معزز ری انشوررز اور دیگر اسٹیک ہولڈرز کے بھی شکر گزار ہیں جن کا اعتماد اور تعاون کمپنی کے ساتھ مسلسل قائم ہے۔ اسی طرح، بورڈ کمپنی کے ملازمین کی محنت اور لگن کو سراہتا ہے، جن کی وابستگی کمپنی کی مسلسل ترقی اور کارکردگی میں کلیدی کردار ادا کر رہی ہے۔

اگرچہ پاکستان کی مقامی معیشت پر اس کے براہ راست اثرات کا مکمل تعین ابھی باقی ہے، تاہم عالمی اجناس کی قیمتوں میں عدم استحکام اور سرمایہ کے بہاؤ میں ممکنہ تبدیلیوں سے متعلق خطرات قریبی نگرانی کے متقاضی

اس کے نتیجے میں، ادا شدہ سرمایہ 719 ملین روپے سے بڑھ کر 1 ارب روپے ہو گیا، جس سے مالی سال 2026 کے لیے سیکیورٹیز اینڈ ایکسچینج کمیشن آف پاکستان (SECP) کی کم از کم سرمایہ کی ضروریات کی تعمیل یقینی بنائی گئی۔

رائٹ ایٹو سے حاصل ہونے والی رقم کو بورڈ سے منظور شدہ سرمایہ کاری پالیسی کے مطابق استعمال کیا جائے گا، جس سے کمپنی کے سرمایہ جاتی ڈھانچے کو مضبوط بنانے اور انڈر رائٹنگ صلاحیت کو بڑھانے میں مدد ملے گی۔ مزید برآں، بہتر ایکویٹی پوزیشن کمپنی کو آپریشنل کارکردگی بہتر بنانے میں بھی معاون ثابت ہوگی، خصوصاً مالی سال 2026 کے دوران ری انشورنس ریٹینشن لمٹس میں متوقع نظر ثانی کے پیش نظر۔

ہم نے اس بات کو یقینی بنایا ہے کہ مذکورہ کمپنی کے ساتھ تمام لین دین آرمز لینتھ بنیادوں پر انجام پائے ہیں۔

#### آڈیٹرز (AUDITORS)

##### بیرونی آڈیٹرز (External Auditors)

یوسف عادل چارٹرڈ اکاؤنٹنٹس نے سال 2025 کے لیے کمپنی کے مالیاتی بیانات کا آڈٹ کیا اور دوبارہ تفری کے اہل ہونے کے باعث خود کو دوبارہ تفری کے لیے پیش کیا۔

کوڈ اور ریگولیشنز کے تقاضوں کے مطابق، بورڈ آڈٹ کمیٹی نے یوسف عادل چارٹرڈ اکاؤنٹنٹس کو سال 2026 کے لیے بیرونی آڈیٹرز کے طور پر مقرر کرنے کی سفارش کی ہے، اور بورڈ اس سفارش کی توثیق کرتا ہے۔

##### شرعیہ کمپلائنس آڈیٹرز (Shariah Compliance Auditors)

S.M. Suhail & Co. چارٹرڈ اکاؤنٹنٹس، جو کہ ٹیکافل روڈ 2012 کے تحت کمپنی کے شرعیہ کمپلائنس آڈیٹرز کے طور پر دوبارہ تفری کے اہل ہیں، نے خود کو دوبارہ تفری کے لیے پیش کیا، اور بورڈ نے بورڈ آڈٹ کمیٹی کی سفارش پر سال 2026 کے لیے S.M. Suhail & Co. چارٹرڈ اکاؤنٹنٹس کی بطور شرعیہ کمپلائنس آڈیٹرز منظوری دے دی ہے۔

چنانچہ، روایتی کاروبار سے کٹری بیوشن مارجن بڑھ کر 117 ملین روپے ہو گیا (2024: 77 ملین روپے)، جو بہتر انڈر رائٹنگ کارکردگی کی عکاسی کرتا ہے۔

#### متفرقات (Miscellaneous)

یہ شعبہ انجینئرنگ، بانڈ، کراپ، ٹریپول اور دیگر متفرق انشورنس لائنز پر مشتمل ہے۔ سال 2025 کے دوران، یہ شعبہ کمپنی کے تحریر کردہ کاروبار کا 14 فیصد رہا، جس میں مجموعی پریمیم 1,070 ملین روپے (بشمول ٹیکافل کٹری بیوشن) رہا، جبکہ 2024 میں یہ 963 ملین روپے تھا۔

روایتی کاروبار سے حاصل ہونے والا کٹری بیوشن مارجن 214 ملین روپے رہا (2024: 247 ملین روپے)۔ مالی سال 2024 کے مقابلے میں مارجن میں کمی کی بنیادی وجہ سال کے دوران زیادہ کلیمز، بالخصوص سیلاب سے متعلق نقصانات، رہے۔

#### سرمایہ کاری، کرایہ اور دیگر آمدنی (Investment, Rental and Other Income)

سرمایہ کاری اور دیگر آمدنی میں 6 فیصد اضافہ ہوا اور یہ 2025 میں بڑھ کر 803 ملین روپے ہو گیا، جبکہ 2024 میں یہ 760 ملین روپے تھی۔ اس اضافہ کی بنیادی وجہ KSE-100 انڈیکس میں مثبت رجحان اور موثر پورٹ فولیو منجمنٹ رہی، جس کے نتیجے میں کمپنی سال کے دوران بہتر سرمایہ کاری منافع حاصل کرنے میں کامیاب رہی۔

سال 2025 کے دوران، کمپنی نے ایکویٹی سرمایہ کاری میں اپنا حصہ بڑھایا اور فعال پورٹ فولیو ری بیلننگ حکمت عملی برقرار رکھی، جس کے ذریعے موافق مارکیٹ حالات سے فائدہ اٹھاتے ہوئے مجموعی سرمایہ کاری منافع کو بہتر بنایا گیا۔

#### وینڈو ٹیکافل آپریشنز (Window Takaful Operations)

وینڈو ٹیکافل آپریشنز (WTO) نے کاروباری حجم اور منافع دونوں میں مستحکم ترقی کا مظاہرہ جاری رکھا، اور کمپنی کو توقع ہے کہ یہ مثبت رجحان آئندہ برسوں میں بھی برقرار رہے گا۔

سال 2025 کے دوران، WTO سے تحریر کردہ کٹری بیوشن 1,279 ملین روپے رہا، جبکہ 2024 میں یہ 1,082 ملین روپے تھا، جو ٹیکافل پورٹ فولیو میں مسلسل توسیع کو ظاہر کرتا ہے۔ آپریٹرز فنڈ سے حاصل ہونے والا منافع بڑھ کر 151 ملین روپے ہو گیا (2024: 136 ملین روپے)۔

ٹیکافل آپریشنز میں کٹری بیوشن اور منافع میں اضافہ انہی عوامل کے باعث ہوا جنہوں نے روایتی انشورنس پورٹ فولیو کی کارکردگی کو سہارا دیا، جن میں کاروباری توسیع اور بہتر آپریشنل منجمنٹ شامل ہیں۔

#### رائٹ ایٹو (5-R)

سال 2025 کی آخری سہ ماہی کے دوران، کمپنی نے تقریباً 28 ملین عام حصص 32 روپے فی حصص (جس میں 22 روپے فی حصص پریمیم شامل ہے) کے اجراء کے ذریعے 920 ملین روپے کا رائٹ ایٹو کامیابی سے مکمل کیا۔

### سال 2025 کے لیے غیر مربوط مالی معلومات

سگنٹ کے لحاظ سے کارکردگی کا تجزیہ  
ہر کاروباری شعبہ کے لحاظ سے کارکردگی کا تجزیہ درج ذیل ہے:

#### حادیثہ و صحت (Accident & Health)

حادیثہ و صحت کے شعبہ نے سال کے دوران اپنی ترقی کی رفتار برقرار رکھی اور پریمیئم (بشمول تکافل کنٹری بیوشن) میں 23 فیصد اضافہ ریکارڈ کیا، جبکہ کمپنی کے کاروبار میں سب سے بڑا حصہ برقرار رکھا۔ اس شعبہ کے تحت مجموعی پریمیئم 2,683 ملین روپے (بشمول تکافل) رہا جبکہ 2024 میں یہ 2,189 ملین روپے تھا، جو کمپنی کے کل پریمیئم کا 35 فیصد بنتا ہے۔

تاہم، روایتی کاروبار سے حاصل ہونے والا کنٹری بیوشن مارجن کم ہو کر 58 ملین روپے رہ گیا (2024): 86 ملین روپے، جس کی بنیادی وجہ سال کے دوران چند بڑے صارفین سے متعلق دعوؤں کے باعث زیادہ نقصان کا تاسب رہا۔

#### موٹر (Motor)

موٹر کے شعبہ نے مستحکم ترقی برقرار رکھی اور پریمیئم (بشمول تکافل کنٹری بیوشن) میں 20 فیصد اضافہ ریکارڈ کیا۔ مجموعی پریمیئم 1,903 ملین روپے (بشمول تکافل کنٹری بیوشن) رہا جبکہ 2024 میں یہ 1,587 ملین روپے تھا، جو کمپنی کے کل کاروبار کا 25 فیصد ہے۔  
روایتی کاروبار سے کنٹری بیوشن مارجن نمایاں طور پر بڑھ کر 691 ملین روپے ہو گیا (2024: 567 ملین روپے)، جس کی بنیادی وجہ سال کے دوران آٹو فنانسنگ کی سرگرمیوں میں اضافہ، مؤثر ٹیکہ مینجمنٹ اور انڈر رائٹنگ نظم و ضبط رہا۔

#### فائر و پراپرٹی ڈیج (Fire & Property Damage)

اس شعبہ نے 2025 کے دوران 1,405 ملین روپے (بشمول تکافل کنٹری بیوشن) مجموعی پریمیئم ریکارڈ کیا جبکہ 2024 میں یہ 1,210 ملین روپے تھا، جو گزشتہ سال کی اسی مدت کے مقابلے میں 16 فیصد اضافہ ظاہر کرتا ہے۔ یہ شعبہ سال کے دوران کمپنی کے کل مجموعی پریمیئم (بشمول تکافل کنٹری بیوشن) کا 18 فیصد رہا۔

تاہم، روایتی کاروبار سے حاصل ہونے والا کنٹری بیوشن مارجن کم ہو کر 127 ملین روپے رہ گیا (2024): 143 ملین روپے، جس کی بنیادی وجہ سال کے دوران اس شعبہ میں غیر متوقع نقصانات رہے۔

#### میرین، ایوی ایشن و ٹرانسپورٹ (Marine, Aviation & Transport)

اس شعبہ نے سال کے دوران 557 ملین روپے (بشمول تکافل کنٹری بیوشن) مجموعی پریمیئم حاصل کیا جبکہ 2024 میں یہ 563 ملین روپے تھا، جو کمپنی کے کل کاروبار کا 7 فیصد ہے۔ اگرچہ مجموعی پریمیئم تقریباً مستحکم رہا، تاہم کمپنی سال کے دوران قیمتوں کے نظم و ضبط کو بہتر بنانے میں کامیاب رہی، جس کے نتیجے میں منافع پر مثبت اثر پڑا۔

ان اقدامات کے ساتھ ساتھ کمپنی ساہمہ سیکورٹی اور ڈیٹا کے تحفظ کے لیے بھی پُر عزم ہے۔ SECP کی ہدایات اور عالمی بہترین طریقہ کار کے مطابق AGICO نے اپنے انفراسٹرکچر کو جدید فائر وائر، مصنوعی ذہانت پر مبنی خطرہ شناختی نظام، SIEM ٹولز اور انٹرنیٹ پرائز سٹخ کے سیکورٹی حل کے ذریعے مزید مضبوط بنایا ہے تاکہ صارفین کے ڈیٹا کا تحفظ اور اسٹیک ہولڈرز کے اعتماد کو برقرار رکھا جاسکے۔

صارفین کے ساتھ مؤثر رابطہ اور خدمات کی فراہمی کو بہتر بنانے کے لیے AGICO نے ایک ای-گریوینس پورٹل بھی متعارف کرایا ہے، جس کے ذریعے شکایات کے اندراج اور ان کے حل کے پیش رفت کی گمرانی کو موثر بنایا گیا ہے۔

##### ڈیجیٹل اقدامات

اس سلسلے میں ایک اہم سگ میل انٹر پرائز آرکیٹیکچر کی ازسر نو تشکیل ہے، جس نے آٹومیشن، آپریشنل کارکردگی اور گرانٹی کے نظام کو مزید مضبوط بنایا ہے۔ موٹر کیمز مینجمنٹ سسٹم (MCMS)، جو ایک مربوط ڈیجیٹل پلیٹ فارم ہے، تمام اسٹیک ہولڈرز کو یکجا کرتا ہے، کاغذی کارروائی کو ختم کرتا ہے، سروس بیروز کے ساتھ حقیقی وقت میں رابطہ ممکن بناتا ہے اور دعویٰ کی تصفیہ کاری کو تیز کرتے ہوئے دھوکہ دہی کے خطرات کو کم کرتا ہے۔

مزید برآں، موبائل ایپلیکیشن کے ذریعے ای-ہیلتھ کارڈ کے اجراء سے حقیقی وقت میں منظوری اور کیسز لیس ہسپتال خدمات تک بلار کاؤت رسائی ممکن ہوئی ہے۔ کارپوریٹ اور انفرادی ہیلتھ پالیسی ہولڈرز کے لیے مختص پورٹل ڈیجیٹل گھنٹہ جمع کروانے، دستاویزات اپ لوڈ کرنے اور حقیقی وقت میں ٹریکنگ کی سہولت فراہم کرتے ہیں، جس سے ایک مؤثر اور صارف دوست تجربہ یقینی بناتا ہے۔

#### معاشی جائزہ

مالی سال 2025 کے دوران پاکستان کی معیشت ایک پیچیدہ میکرو اکنامک ماحول میں کام کرتی رہی۔ اگرچہ مجموعی جی ڈی پی کی نمو محدود رہی اور برآمدات کی رفتار کمزور رہی، تاہم بڑی صنعتوں (LSM-Large Scale Manufacturing) میں ابتدائی بحالی کے آثار نے صنعتی سرگرمیوں کو کسی حد تک سہارا فراہم کیا۔ ترسیلات زر مستحکم رہیں، جبکہ زرمبادلہ کی شرح میں نسبی استحکام نے بیرونی کھاتوں کے بہتر انتظام میں معاونت کی۔

مانیٹرنگ پالیسی میں نرمی، جس کے تحت پالیسی ریٹ میں مجموعی طور پر 250 بیس پوائنٹس کمی کی گئی، کاروباری اداروں کو سہولت فراہم کرنے اور لیکویڈیٹی کی صورتحال کو بہتر بنانے کا باعث بنی۔ جاری اصلاحاتی اقدامات اور آئی ایم ایف پروگرام کے جائزوں کی کامیاب تکمیل نے پاکستان کی بیرونی کریڈٹ حیثیت کو بہتر بنایا اور سرمایہ کاروں کے اعتماد کو مضبوط کیا۔

تاہم، پنجاب، خیبر پختونخوا اور کشمیر کے بعض علاقوں میں شدید میون سون سیلاب نے زراعت، انفراسٹرکچر اور دیگر شہہ اثاثہ جات کو نمایاں طور پر متاثر کیا، جبکہ جغرافیائی سیاسی کشیدگی اور سرحدی سیکورٹی کی صورتحال نے تجارتی بہاؤ میں خلل ڈالا اور مہنگائی کے دباؤ میں اضافہ کیا۔

اس ماحول میں، انشورنس سیکٹر کو دعووں میں بڑھتے ہوئے اتار چڑھاؤ کے ساتھ ساتھ سرمایہ کاری کی منڈیوں میں بہتری کا سامنا رہا۔ کمپنی نے ان حالات میں مؤثر انداز میں رہنمائی حاصل کرتے ہوئے نظم و ضبط پر مبنی انڈر رائٹنگ اور ایکویٹی ایکسیچینج میں بہتری کے ذریعے سرمایہ کاری آمدنی اور حتمی منافع میں اضافہ حاصل کیا۔

#### سال 2025 میں AGICO کی کارکردگی

کمپنی نے سال 2025 کے دوران مثبت مالی کارکردگی کا مظاہرہ کیا اور مجموعی پربیم 7.6 ارب روپے تحریر کیا، جس میں 1.28 ارب روپے وٹڈ وٹ کافل آپریشنز سے حاصل ہوئے (6.5:2024) ارب روپے، جس میں 1.08 ارب روپے وٹڈ وٹ کافل آپریشنز سے حاصل ہوئے تھے)۔

سرمایہ کاری اور دیگر آمدنی میں 6 فیصد اضافہ ریکارڈ کیا گیا، جس سے کمپنی کی مجموعی منافع بخشیت مزید مستحکم ہوئی۔ چنانچہ کمپنی نے 1,141 ملین روپے قبل از ٹیکس منافع حاصل کیا (1,060:2024 ملین روپے)، جو مسلسل آپریشنل کارکردگی اور نظم و ضبط پر مبنی مالیاتی انتظام کا مظہر ہے۔

کمپنی نے سال کے دوران 32 روپے فی حصص (جس میں 22 روپے پربیم شامل ہے) کے حساب سے 40 فیصد رائٹ ایٹو کا مالیاتی سے مکمل کیا۔

# DIRECTORS' REPORT

Consolidated financial information for the year 2025

On behalf of the Board of Directors, we are pleased to present the Directors' Report of Askari General Insurance Company Limited (the Company) along with Audited Unconsolidated Financial Statements and the Auditors' Report thereon for the year ended December 31st, 2025.

## ECONOMIC REVIEW

Pakistan's economy operated within a complex macroeconomic environment during FY2025. While overall GDP growth remained subdued and export momentum was limited, early signs of recovery in Large-Scale Manufacturing (LSM) provided some industrial support. Workers' remittances remained resilient, and relative exchange rate stability contributed to improved external balance management.

Monetary easing, with a cumulative 250 basis points reduction in the policy rate, provided relief to businesses and supported liquidity conditions. Continued reform measures and the successful completion of IMF program reviews enhanced Pakistan's external credit standing and reinforced investor confidence.

However, severe monsoon floods across Punjab, Khyber Pakhtunkhwa, and parts of Kashmir significantly impacted agriculture, infrastructure, and insured assets, while geopolitical tensions and border security developments disrupted trade flows and intensified inflationary pressures.

Within this environment, the insurance sector faced heightened claims volatility alongside improved investment market conditions. The Company navigated these dynamics effectively, leveraging disciplined underwriting and enhanced equity exposure to deliver an increase in investment income and the ultimate profits.

## AGICO in 2025

The Company delivered positive financial performance during 2025, underwriting a Gross Premium of Rs. 7.6 billion, including Rs. 1.28 billion from Window Takaful Operations (2024: Rs. 6.5 billion, including Rs. 1.08 billion from Window Takaful Operations). Investment and other incomes recorded a growth of 6%, further strengthening the overall profitability of the Company. Consequently, the Company achieved a Profit Before Tax of Rs. 1,141 million (2024: Rs. 1,060 million), reflecting sustained operational momentum and disciplined financial management.

The Company successfully completed a 40% right issue at Rs. 32 per share, including a premium of Rs. 22 per share, during the year.

The earnings per share (EPS) of the Company, after giving effect to the Right Issue of Rs. 920 million undertaken during the year, stood at Rs. 9.23 per share (2024 – Restated: Rs. 8.30 per share). For FY2024, the Company had previously reported an EPS of Rs. 9.26 per share, which has been restated to reflect the impact of the

Right Issue. Had the additional shares not been issued during the year, the EPS for FY2025 would have been Rs. 10.27 per share, demonstrating the underlying strength of the Company's earnings performance.

## SEGMENT WISE PERFORMANCE ANALYSIS

The segment wise performance analysis for each class of business is as follows:

### Accident & Health

The Accident & Health segment continued its growth trajectory during the year, registering a 23% increase in premiums (inclusive of Takaful contribution) and maintaining its position as the largest contributor to the Company's business. Gross premium under this segment amounted to Rs. 2,683 million (inclusive of Takaful) compared to Rs. 2,189 million in 2024, representing 35% of the Company's total premiums.

However, contribution margins from the conventional business declined to Rs. 58 million (2024: Rs. 86 million), primarily due to a higher loss ratio arising from claims associated with a few high-value clients during the year.

### Motor

The Motor segment maintained stable growth, recording a 20% increase in premiums (inclusive of Takaful contribution). Gross premiums reached Rs. 1,903 million (inclusive of Takaful contribution) compared to Rs. 1,587 million in 2024, representing 25% of the Company's total business.

Contribution margins from the conventional business improved significantly to Rs. 691 million (2024: Rs. 567 million), primarily driven by a notable increase in auto financing activity during the year, coupled with effective claims management and underwriting discipline.

### Fire & Property Damage

The segment recorded gross premium of Rs. 1,405 million (inclusive of Takaful contribution) during 2025 compared to Rs. 1,210 million in 2024, reflecting a 16% growth over the same period last year (SPLY). This segment accounted for 18% of the Company's total gross premium (inclusive of Takaful contribution) for the year.

However, the contribution margin from the conventional business declined to Rs. 127 million (2024: Rs. 143 million), primarily due to unexpected losses experienced within the segment during the year.

### Marine, Aviation & Transport

The segment generated gross premium of Rs. 557 million (inclusive of Takaful contribution) during the year compared to Rs. 563 million in 2024, representing 7% of the Company's total business. While gross premiums remained largely stable, the Company was able to improve pricing discipline during the year, which positively impacted profitability.

Accordingly, contribution margins from the conventional business increased to Rs. 117 million (2024: Rs. 77 million), reflecting improved underwriting performance.

### Miscellaneous

This segment comprises engineering, bond, crop, travel, and other miscellaneous insurance lines. During 2025, the segment accounted for 14% of the Company's underwritten business, with gross premium underwritten amounting to Rs. 1,070 million (inclusive of Takaful contribution) compared to Rs. 963 million in 2024.

The contribution margin from the conventional business stood at Rs. 214 million (2024: Rs. 247 million). The decline in margins compared to FY2024 was primarily attributable to higher claims incurred during the year, particularly arising from flood-related losses.

### Investment, Rental and other Income

Investment and other income increased by 34% to Rs. 1,128 million in 2025, compared to Rs. 844 million in 2024. This growth was primarily driven by the positive momentum in the KSE-100 Index, along with effective portfolio management, which enabled the Company to realize improved investment gains during the year.

During 2025, the Company increased its exposure to equity investments and maintained an active portfolio rebalancing strategy, allowing it to capitalize on favorable market conditions while optimizing overall investment returns.

## WINDOW TAKAFUL OPERATIONS

The Window Takaful Operations (WTO) continued to demonstrate steady growth in both business volume and profitability, and the Company expects this positive trend to persist in the coming years.

During 2025, written contributions from WTO amounted to Rs. 1,279 million, compared to Rs. 1,082 million in 2024, reflecting continued expansion of the Takaful portfolio. The profit from the Operator's Fund increased to Rs. 158 million in 2025, as against Rs. 131 million in 2024.

The growth in contributions and profitability of the Takaful operations was driven by broadly similar factors that supported the performance of the conventional insurance portfolio, including business expansion and improved operational management.

### RIGHT ISSUE (R-5)

During the last quarter of 2025, the Company successfully completed a Right Issue of Rs. 920 million through the issuance of approximately 28 million ordinary shares at Rs. 32 per share, including a share premium of Rs. 22 per share.

As a result, the paid-up capital increased from Rs. 719 million to Rs. 1 billion, thereby ensuring compliance with the SECP's minimum capital requirements applicable for FY 2026.

The proceeds of the Right Issue will be deployed in accordance with the Board-approved Investment Policy, strengthening the Company's capital base and enhancing its underwriting capacity. The augmented equity position will also enable the Company to optimize operational performance, particularly in view of the anticipated revision of reinsurance retention limits during FY 2026.

### CONTRACT FOR TRACKING AND OTHER SERVICES

In accordance with section 208(2) of Companies Act, 2017, we would like to inform the shareholders that the Company has continued its contract for provision of tracking and other services with Asktech (Pvt.) ## OUTLOOK AND STRATEGIC DIRECTION

The Board remains cautiously optimistic about the Company's strategic trajectory for 2026, while acknowledging the heightened geopolitical uncertainties impacting the Middle East and global markets. Since late February 2026, a major conflict has unfolded following coordinated military operations by the United States and Israel against targets in the Islamic Republic of Iran, with subsequent Iranian retaliatory strikes across the region. This situation has broadened into a significant regional confrontation involving multiple states and non-state actors, contributing to increased volatility in energy markets, supply chains, and investor sentiment.

Although the direct impact on Pakistan's domestic economic environment remains to be fully determined, risks associated with global commodity price instability and potential shifts in capital flows warrant attentive monitoring. Against this backdrop, the Company continues to prioritize prudent risk management, operational resilience, and capital strength to navigate potential external shocks. Our focus remains on delivering sustainable value to shareholders through disciplined execution of strategic initiatives, while adapting proactively to the evolving macroeconomic and geopolitical landscape.

#### ACKNOWLEDGMENTS

We would like to take this opportunity to express our sincere gratitude to our regulators and industry institutions, including the Insurance Association of Pakistan (IAP), for their continued guidance and support to the insurance sector. We also extend our appreciation to our valued reinsurers and other stakeholders for their continued trust and confidence in the Company. Equally, the Board acknowledges the dedication and hard work of our employees whose commitment remains instrumental in driving the Company's sustained growth and performance.

In particular, the Board wishes to recognize certain progressive regulatory support during the year that has positively supported corporate growth and capital market development. In this regard, the Board of Directors places on record its sincere appreciation for the proactive regulatory reforms introduced by the Securities

and Exchange Commission of Pakistan (SECP) during 2025 in relation to the issuance of right shares by listed companies. The amendments to the Companies (Further Issue of Shares) Regulations significantly streamlined procedural requirements and reduced the overall timelines for completion of right issues. These facilitative measures enabled the Company to successfully complete its right share issuance within the 2025 financial year, thereby enhancing its paid-up capital to Rs. 1 billion. Had the previous regulatory timeframes remained in place, completion of the capital increase would have extended beyond 2025, potentially deferring the Company's growth and strategic initiatives. The Board acknowledges and commends SECP's constructive and business-friendly approach, which continues to strengthen Pakistan's capital market framework and support corporate growth.

## ڈائریکٹر کی رپورٹ

### سال 2025 کے لیے جامع مالیاتی معلومات

بنایا گیا اور رائٹ ایٹوز کی تکمیل کے لیے درکار مجموعی وقت کو کم کیا گیا۔ ان سہولت بخش اقدامات کے نتیجے میں کمپنی مالی سال 2025 کے اندر اپنے رائٹ شیئرز کے اجراء کو کامیابی سے مکمل کرنے میں کامیاب رہی، جس سے اس کا ادا شدہ سرمایہ بڑھ کر 1 ارب روپے ہو گیا۔ اگر سابقہ ریگولیٹری ٹائم لائنز برقرار رہتیں تو سرمایہ میں اضافہ 2025 سے آگے بڑھ سکتا تھا، جس سے کمپنی کی ترقی اور ترقیاتی اقدامات میں تاخیر کا امکان تھا۔ بورڈ SECP کے تعمیری اور کاروبار دوست رویے کو سراہتا ہے، جو پاکستان کی کمپنیل مارکیٹ کو مضبوط بنانے اور کارپوریٹ ترقی کو فروغ دینے میں اہم کردار ادا کر رہا ہے۔

#### اعترافات (Acknowledgments)

بالخصوص، بورڈ سال کے دوران بعض مثبت ریگولیٹری اقدامات کو بھی تسلیم کرنا چاہتا ہے جنہوں نے کارپوریٹ ترقی اور کمپنیل مارکیٹ کی ترقی میں معاونت فراہم کی۔ اس ضمن میں، بورڈ آف ڈائریکٹرز سال 2025 کے دوران سکیورٹیز ریگولیشنز ایکٹ 2015 (SECP) کی جانب سے لسٹڈ کمپنیوں کے رائٹ شیئرز کے اجراء سے متعلق متعارف کرائی گئی فعال ریگولیٹری اصلاحات کو ریکارڈ پر سراہتا ہے۔ کمپنیز (Further Issue of Shares) ریگولیشنز میں ترامیم کے ذریعے طریقہ کار کو نمایاں طور پر سادہ

#### بورڈ کمیٹیاں (Board Committees)

سال 2025 کے دوران آڈٹ کمیٹی کے پانچ اجلاس منعقد ہوئے جبکہ دیگر تمام کمیٹیوں کے دو، دو اجلاس ہوئے۔ بورڈ کمیٹیوں کی تشکیل اور ان کے دائرہ اختیار کی تفصیل اس رپورٹ کے صفحہ 50 پر دی گئی ہے۔

#### مستقبل کا لائحہ عمل اور ترویجی سمت (Outlook and Strategic Direction)

بورڈ سال 2026 کے لیے کمپنی کی ترویجی سمت کے حوالے سے محتاط امید کا اظہار کرتا ہے، تاہم مشرق وسطیٰ اور عالمی منڈیوں پر اثر انداز ہونے والی بڑھتی ہوئی جغرافیائی و سیاسی غیر یقینی صورتحال کو بھی تسلیم کرتا ہے۔ فروری 2026 کے اواخر سے، ریاستہائے متحدہ امریکہ اور اسرائیل کی جانب سے اسلامی جمہوریہ ایران میں اہداف کے خلاف مشترکہ عسکری کارروائیوں کے بعد ایک بڑا تنازعہ شروع ہوا، جس کے ردعمل میں ایران کی جانب سے خطے میں جوابی کارروائیاں کی گئیں۔ یہ صورتحال متعدد ریاستوں اور غیر ریاستی عناصر کی شمولیت کے باعث ایک بڑے علاقائی تصادم کی صورت اختیار کر چکی ہے، جس کے نتیجے میں توانائی کی منڈیوں، سپلائی چینز اور سرمایہ کاروں کے اعتماد میں نمایاں اتار چڑھاؤ پیدا ہوا ہے۔

اگرچہ پاکستان کی مقامی معیشت پر اس کے براہ راست اثرات کا مکمل تعین ابھی باقی ہے، تاہم عالمی اجناس کی قیمتوں میں عدم استحکام اور سرمایہ کے بہاؤ میں ممکنہ تبدیلیوں سے متعلق خطرات قریبی نگرانی کے متقاضی ہیں۔ اس پس منظر میں، کمپنی ممکنہ بیرونی چیلنجز سے نمٹنے کے لیے محتاط رسک مینجمنٹ، آپریشنل مضبوطی اور سرمایہ جاتی استحکام کو ترجیح دیتی رہے گی۔ ہماری توجہ ترویجی اقدامات کے منظم نفاذ کے ذریعے شہر ہوٹلز کے لیے پائیدار قدرتی فراہمی پر مرکوز رہے گی، جبکہ بدلتے ہوئے معاشی اور جغرافیائی و سیاسی ماحول کے مطابق پیشگی طور پر خود کو ہم آہنگ کیا جائے گا۔

## ڈائریکٹر کی رپورٹ

### سال 2025 کے لیے جامع مالیاتی معلومات

اس کے نتیجے میں، ادا شدہ سرمایہ 719 ملین روپے سے بڑھ کر 1 ارب روپے ہو گیا، جس سے مالی سال 2026 کے لیے سیکورٹیز اینڈ ایکسچینج کمیشن آف پاکستان (SECP) کی کم از کم سرمایہ کی ضروریات کی تعمیل یقینی بنائی گئی۔

چنانچہ، روایتی کاروبار سے کٹری بیوشن مارجن بڑھ کر 117 ملین روپے ہو گیا (2024: 77 ملین روپے)، جو بہتر انڈر رائٹنگ کارکردگی کی عکاسی کرتا ہے۔

#### متفرق (Miscellaneous)

رائٹ ایٹو سے حاصل ہونے والی رقم کو بورڈ سے منظور شدہ سرمایہ کاری پالیسی کے مطابق استعمال کیا جائے گا، جس سے کمپنی کے سرمایہ جاتی ڈھانچے کو مضبوط بنانے اور انڈر رائٹنگ صلاحیت کو بڑھانے میں مدد ملے گی۔ مزید برآں، بہتر ایکویٹی پوزیشن کمپنی کو آپریشنل کارکردگی بہتر بنانے میں بھی معاون ثابت ہوگی، خصوصاً مالی سال 2026 کے دوران ری انشورنس ریٹینشن لمٹس میں متوقع نظر ثانی کے پیش نظر۔

یہ شعبہ انجینئرنگ، بانڈ، کراپ، ٹریول اور دیگر متفرق انشورنس لائنز پر مشتمل ہے۔ سال 2025 کے دوران، یہ شعبہ کمپنی کے تحریر کردہ کاروبار کا 14% فیصد رہا، جس میں مجموعی پریمیم 1,070 ملین روپے (بشمول نکافل کٹری بیوشن) رہا، جبکہ 2024 میں یہ 963 ملین روپے تھا۔

#### ٹریکنگ اور دیگر خدمات کا معاہدہ (Contract for Tracking and Other Services)

کمپنیز ایکٹ، 2017 کی دفعہ 208(2) کے مطابق، ہم حصص یافتگان کو مطلع کرنا چاہتے ہیں کہ کمپنی نے اپنی ذیلی کمپنی Asktech (Pvt.) Ltd کے ساتھ ٹریکنگ اور دیگر خدمات کی فراہمی کا معاہدہ جاری رکھا ہوا ہے۔ موثر انشورنس کاروبار میں خطرات کو کم کرنے کے لیے ٹریکنگ خدمات حاصل کی گئی ہیں۔

روایتی کاروبار سے حاصل ہونے والا کٹری بیوشن مارجن 214 ملین روپے رہا (2024: 247 ملین روپے)۔ مالی سال 2024 کے مقابلے میں مارجن میں کمی کی بنیادی وجہ سال کے دوران زیادہ کلیمز، بالخصوص سیلاب سے متعلق نقصانات، رہے۔

سرمایہ کاری، کرایہ اور دیگر آمدنی (Investment, Rental and Other Income) سرمایہ کاری اور دیگر آمدنی میں 34 فیصد اضافہ ہوا اور یہ 2025 میں بڑھ کر 1,128 ملین روپے ہو گیا، جبکہ 2024 میں یہ 844 ملین روپے تھی۔ اس اضافہ کی بنیادی وجہ KSE-100 انڈیکس میں مثبت رجحان اور مؤثر پورٹ فولیو مینجمنٹ رہی، جس کے نتیجے میں کمپنی سال کے دوران بہتر سرمایہ کاری منافع حاصل کرنے میں کامیاب رہی۔

ہم نے اس بات کو یقینی بنایا ہے کہ مذکورہ کمپنی کے ساتھ تمام لین دین آرمز لینتھ بنیادوں پر انجام پائے ہیں۔

#### آڈیٹرز (AUDITORS)

##### بیرونی آڈیٹرز (External Auditors)

یوسف عادل چارٹرڈ اکاؤنٹنٹس نے سال 2025 کے لیے کمپنی کے مالیاتی بیانات کا آڈٹ کیا اور دوبارہ تقرری کے اہل ہونے کے باعث خود کو دوبارہ تقرری کے لیے پیش کیا۔

سال 2025 کے دوران، کمپنی نے ایکویٹی سرمایہ کاری میں اپنا حصہ بڑھایا اور فعال پورٹ فولیو ری ہیلنگ حکمت عملی برقرار رکھی، جس کے ذریعے موافق مارکیٹ حالات سے فائدہ اٹھاتے ہوئے مجموعی سرمایہ کاری منافع کو بہتر بنایا گیا۔

#### وینڈو نکافل آپریشنز (Window Takaful Operations)

کوڈ اور ریگولیشنز کے تقاضوں کے مطابق، بورڈ آڈٹ کمیٹی نے یوسف عادل چارٹرڈ اکاؤنٹنٹس کو سال 2026 کے لیے بیرونی آڈیٹرز کے طور پر مقرر کرنے کی سفارش کی ہے، اور بورڈ اس سفارش کی توثیق کرتا ہے۔

وینڈو نکافل آپریشنز (WTO) نے کاروباری حجم اور منافع دونوں میں مستحکم ترقی کا مظاہرہ جاری رکھا، اور کمپنی کو توقع ہے کہ یہ مثبت رجحان آئندہ برسوں میں بھی برقرار رہے گا۔

#### شرعیہ کمپلائنس آڈیٹرز (Shariah Compliance Auditors)

S.M. Suhail & Co. چارٹرڈ اکاؤنٹنٹس، جو نکافل رولز 2012 کے تحت کمپنی کے شرعیہ کمپلائنس آڈیٹرز کے طور پر دوبارہ تقرری کے اہل ہیں، نے خود کو دوبارہ تقرری کے لیے پیش کیا، اور بورڈ نے بورڈ آڈٹ کمیٹی کی سفارش پر سال 2026 کے لیے S.M. Suhail & Co. چارٹرڈ اکاؤنٹنٹس کی بطور شرعیہ کمپلائنس آڈیٹرز منظور دے دی ہے۔

سال 2025 کے دوران WTO سے تحریر کردہ کٹری بیوشن 1,279 ملین روپے رہا، جبکہ 2024 میں یہ 1,082 ملین روپے تھا، جو نکافل پورٹ فولیو میں مسلسل توسیع کو ظاہر کرتا ہے۔ آپریٹرز فنڈ سے حاصل ہونے والا منافع بڑھ کر 158 ملین روپے ہو گیا (2024: 131 ملین روپے)۔

نکافل آپریشنز میں کٹری بیوشن اور منافع میں اضافہ انہی عوامل کے باعث ہوا جنہوں نے روایتی انشورنس پورٹ فولیو کی کارکردگی کو سہارا دیا، جن میں کاروباری توسیع اور بہتر آپریشنل مینجمنٹ شامل ہیں۔

#### رائٹ ایٹو (5-R)

سال 2025 کی آخری سہ ماہی کے دوران، کمپنی نے تقریباً 28 ملین عام حصص 32 روپے فی حصص (جس میں 22 روپے فی حصص پریمیم شامل ہے) کے اجراء کے ذریعے 920 ملین روپے کا رائٹ ایٹو کامیابی سے مکمل کیا۔

## ڈائریکٹر کی رپورٹ

### سال 2025 کے لیے جامع مالیاتی معلومات

سگمنٹ کے لحاظ سے کارکردگی کا تجزیہ (Segment Wise Performance) (Analysis)  
ہر کاروباری شعبہ کے لحاظ سے کارکردگی کا تجزیہ درج ذیل ہے:

**حادثہ و صحت (Accident & Health)**  
حادثہ و صحت کے شعبہ نے سال کے دوران اپنی ترقی کی رفتار برقرار رکھی اور پرییم (بشمول نکافل کنٹری بیوشن) میں 23 فیصد اضافہ ریکارڈ کیا، جبکہ کمپنی کے کاروبار میں سب سے بڑے حصہ دار کے طور پر اپنی حیثیت برقرار رکھی۔ اس شعبہ کے تحت مجموعی پرییم 2,683 ملین روپے (بشمول نکافل) رہا جبکہ 2024 میں یہ 2,189 ملین روپے تھا، جو کمپنی کے کل پرییم 35 فیصد بنتا ہے۔ تاہم، روایتی کاروبار سے حاصل ہونے والا کنٹری بیوشن مارجن کم ہو کر 58 ملین روپے رہ گیا (2024: 86 ملین روپے)، جس کی بنیادی وجہ سال کے دوران چند بڑے صارفین سے متعلق دعویوں کے باعث زیادہ نقصان کا تناسب رہا۔

**موٹر (Motor)**  
موٹر کے شعبہ نے مستحکم ترقی برقرار رکھی اور پرییم (بشمول نکافل کنٹری بیوشن) میں 20 فیصد اضافہ ریکارڈ کیا۔ مجموعی پرییم 1,903 ملین روپے (بشمول نکافل کنٹری بیوشن) رہا جبکہ 2024 میں یہ 1,587 ملین روپے تھا، جو کمپنی کے کل کاروبار کا 25 فیصد ہے۔ روایتی کاروبار سے کنٹری بیوشن مارجن نمایاں طور پر بڑھ کر 691 ملین روپے ہو گیا (2024: 567 ملین روپے)، جس کی بنیادی وجہ سال کے دوران آٹو فنانسنگ کی سرگرمیوں میں نمایاں اضافہ، مؤثر کلیم ریٹینجمنٹ اور انڈر رائٹنگ نظم و ضبط رہا۔

**فائر و پراپرٹی ڈیج (Fire & Property Damage)**  
اس شعبہ نے سال 2025 کے دوران 1,405 ملین روپے (بشمول نکافل کنٹری بیوشن) مجموعی پرییم ریکارڈ کیا جبکہ 2024 میں یہ 1,210 ملین روپے تھا، جو گزشتہ سال کی اسی مدت کے مقابلے میں 16 فیصد اضافہ ظاہر کرتا ہے (SPLY)۔ یہ شعبہ سال کے دوران کمپنی کے کل مجموعی پرییم (بشمول نکافل کنٹری بیوشن) کا 18 فیصد رہا۔

تاہم، روایتی کاروبار سے حاصل ہونے والا کنٹری بیوشن مارجن کم ہو کر 127 ملین روپے رہ گیا (2024: 143 ملین روپے)، جس کی بنیادی وجہ سال کے دوران اس شعبہ میں غیر متوقع نقصانات رہے۔

**میرین، ایوی ایشن و ٹرانسپورٹ (Marine, Aviation & Transport)**  
اس شعبہ نے سال کے دوران 557 ملین روپے (بشمول نکافل کنٹری بیوشن) مجموعی پرییم حاصل کیا جبکہ 2024 میں یہ 563 ملین روپے تھا، جو کمپنی کے کل کاروبار کا 7 فیصد ہے۔ اگرچہ مجموعی پرییم بڑی حد تک مستحکم رہا، تاہم کمپنی سال کے دوران قیمتوں کے نظم و ضبط کو بہتر بنانے میں کامیاب رہی، جس کے نتیجے میں منافع پر مثبت اثر پڑا۔

## ڈائریکٹر کی رپورٹ

### سال 2025 کے لیے جامع مالیاتی معلومات

آمدنی (EPS) 9.23 روپے رہی (2024—ازسر نومرتب: 8.30 روپے فی حصص)۔ مالی سال 2024 کے لیے کمپنی نے پہلے 9.26 روپے فی حصص آمدنی رپورٹ کی تھی، جسے رائٹ ایٹو کے اثرات کو مد نظر رکھتے ہوئے ازسر نومرتب کیا گیا ہے۔ اگر سال کے دوران اضافی حصص جاری نہ کیے جاتے تو مالی سال 2025 کے لیے فی حصص آمدنی 10.27 روپے ہوتی، جو کمپنی کی بنیادی آمدنی کی مضبوطی کو ظاہر کرتی ہے۔

#### اہم جھلکیاں (Key Highlights)

##### IFRS ریٹنگ

کمپنی نے Insurer Financial Strength Rating "AA" "برقرار رکھی ہے، جو پاکستان کریڈٹ ریٹنگ کمپنی لمیٹڈ (PACRA) اور VIS کی جانب سے بالترتیب 4 فروری 2026 اور 24 دسمبر 2025 کو Stable آؤٹ لک کے ساتھ جاری کی گئی۔

##### ڈیجیٹل اقدامات (Digital Initiatives)

AGICO کی حکمت عملی کے مرکز میں ٹیکنالوجی کی جدت اور ڈیجیٹل تبدیلی کے لیے مضبوط عزم موجود ہے، جسے نظاموں کی جدید کاری، ریگولیشن کی تعمیل میں بہتری، اور کسٹمر تجربے کو بہتر بنانے کے لیے اسٹریٹجک سرمایہ کاری کی حمایت حاصل ہے۔

اس سفر میں ایک اہم سنگ میل Enterprise Architecture Revamp ہے، جس نے خود کاری، آپریشنل کارکردگی، اور نگرانی و گورننس کو مضبوط بنایا ہے۔ Motor Claims Management System (MCMS)، ایک متحدہ ڈیجیٹل پلیٹ فارم، تمام اسٹیبل ہولڈرز کو یکجا کرتا ہے، کاغذی کارروائی کو ختم کرتا ہے، سروسایز کے ساتھ حقیقی وقت میں ہم آہنگی کو ممکن بناتا ہے، اور کلیمز کے تصفیے کے عمل کو تیز کرتے ہوئے فراڈ کے خطرات کو کم کرتا ہے۔

اس وقت موبائل ایپلیکیشن کے ذریعے Health Card کا آغاز حقیقی وقت میں منظوری اور کیش لیس ہسپتال خدمات تک بلا کارڈ رسائی فراہم کرتا ہے۔ کارپوریٹ اور انفرادی ہیلتھ پالیسی ہولڈرز کے لیے مخصوص پورٹل ڈیجیٹل کلیمز جمع کرانے، دستاویزات اپ لوڈ کرنے، اور حقیقی وقت میں ٹریکنگ کی سہولت فراہم کرتے ہیں، جس سے ایک منظم اور صارف دوست تجربہ یقینی بناتا ہے۔

ہیلتھ سیگمنٹ کی مسلسل توسیع کے ساتھ، کمپنی نے پیمانے اور سروس کے معیار کی معاونت کے لیے اپنی ڈیجیٹل ریٹینشن کی کوششوں میں نمایاں پیش رفت کی ہے۔ پالیسی ہولڈرز کے لیے آن لائن کلیمز جمع کرانے کے لیے ایک مکمل ڈیجیٹل اور ریل ماحول کی تشکیل میں خاطر خواہ پیش رفت ہوئی ہے، جس سے رفتار، شفافیت، اور کارکردگی میں بہتری آئی ہے۔ مسلسل ڈیجیٹل بہتری اور بڑھتے ہوئے ہیلتھ پورٹ فولیو پروجیکٹ کے ذریعے، AGICO ایک قابل توسیع، محفوظ، اور مستقبل کے لیے تیار انشورنس ایکوسٹم تشکیل دے رہا ہے۔

ان پیش رفتوں کے ساتھ ساتھ، کمپنی مضبوط سائبر سیکیورٹی اور ڈیٹا تحفظ کے لیے بھی عزم ہے۔ SECP

بورڈ آف ڈائریکٹرز کی جانب سے، ہمیں خوشی ہے کہ ہم اسٹاکری جنرل انشورنس کمپنی لمیٹڈ (کمپنی) کی ڈائریکٹرز رپورٹ، آڈٹ شدہ غیر مجموعی مالیاتی بیانات اور ان پراڈیٹرز کی رپورٹ کے ہمراہ، برائے سال اختتام پذیر 31 دسمبر 2025 پیش کرتے ہیں۔

#### معاشی جائزہ (Economic Review)

مالی سال 2025 کے دوران پاکستان کی معیشت ایک پیچیدہ میکرو اکنامک ماحول میں سرگرم رہی۔ اگرچہ مجموعی جی ڈی پی کی شرح نمو محدود رہی اور برآمدات میں رفتار کم رہی، تاہم بڑے پیمانے کی صنعت (LSM) میں ابتدائی بحالی کے آثار نے صنعتی سرگرمی کو کچھ سہارا فراہم کیا۔ کارکنوں کی ترسیلات زر مستحکم رہیں اور شرح مبادلہ میں نسبی استحکام نے بیرونی کھاتوں کے انتظام میں بہتری میں معاونت کی۔

مائٹری زمی، جس کے تحت پالیسی ریٹ میں مجموعی طور پر 250 بیس پوائنٹس کمی کی گئی، نے کاروباری اداروں کو سہولت فراہم کی اور لیکویڈیٹی کے حالات کو بہتر بنایا۔ اصلاحاتی اقدامات کا تسلسل اور آئی ایم ایف پروگرام کے جائزوں کی کامیاب تکمیل نے پاکستان کی بیرونی کریڈٹ پوزیشن کو مضبوط کیا اور سرمایہ کاریوں کے اعتماد میں اضافہ کیا۔

تاہم، پنجاب، خیبر پختونخوا اور کشمیر کے بعض حصوں میں شدید مون سون سیلابوں نے زراعت، انفراسٹرکچر اور بیمہ شدہ اثاثوں کو نمایاں نقصان پہنچایا، جبکہ جغرافیائی و سیاسی کشیدگی اور سرحدی سیکورٹی کی صورتحال نے تجارتی بہاؤ کو متاثر کیا اور مہنگائی کے دباؤ میں اضافہ کیا۔

اس ماحول میں، انشورنس سیکلر کلیمز میں اتار چڑھاؤ کا سامنا رہا جبکہ سرمایہ کاری کی منڈیوں میں بہتری بھی دکھی گئی۔ کمپنی نے ان حالات کا مؤثر انداز میں مقابلہ کیا اور منظم انڈر رائٹنگ اور ایکویٹی سرمایہ کاری میں اضافہ کے ذریعے سرمایہ کاری آمدنی اور مجموعی منافع میں اضافہ حاصل کیا۔

#### AGICO سال 2025 میں

کمپنی نے سال 2025 کے دوران مثبت مالیاتی کارکردگی کا مظاہرہ کیا، جس کے تحت مجموعی پریمیم 7.6 ارب روپے تحریر کیا گیا، جس میں 1.28 ارب روپے ونڈونگائل آپریشنز سے حاصل ہوئے (2024: 6.5 ارب روپے، جس میں 1.08 ارب روپے ونڈونگائل آپریشنز سے شامل تھے)۔

سرمایہ کاری اور دیگر آمدنی میں 6 فیصد اضافہ ریکارڈ کیا گیا، جس سے کمپنی کی مجموعی منافع بخشیت مزید مضبوط ہوئی۔ چنانچہ، کمپنی نے 1,141 ملین روپے قبل از ٹیکس منافع حاصل کیا (2024: 1,060 ملین روپے)، جو آپریشنل تسلسل اور مالی نظم و ضبط کی عکاسی کرتا ہے۔

کمپنی نے سال کے دوران 32 روپے فی حصص (جس میں 22 روپے فی حصص پریمیم شامل ہے) کے حساب سے 40 فیصد رائٹ ایٹو کا مابانی سے مکمل کیا۔

سال کے دوران 920 ملین روپے کے رائٹ ایٹو کے اثرات کو شامل کرنے کے بعد کمپنی کی فی حصص

industries and by continually assessing the credit worthiness of counterparties.

Concentration of credit risk occurs when a number of counterparties have a similar type of business activities. The management monitors and limits the Company's exposure to credit risk through monitoring of client's exposure and maintaining conservative estimates of provisions for doubtful assets, if required. The management believes it is not exposed to significant concentration of credit risk as its financial assets are adequately diversified in entities of sound financial standing, covering various industrial sectors.

The objective is to manage and control market risk exposures within acceptable parameters, while optimizing the return. To guard against risk, the Company has diversified funding sources and assets are managed with liquidity in mind, maintaining a healthy balance of cash and cash equivalents and readily marketable securities.

For further information relating to Liquidity Risks facing the Company, please refer to note no. 41 to the financial statements.

### Key Sources of Estimating Uncertainty

The preparation of financial statements requires management and the Board of Directors to make estimates and judgments that impact reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingencies. The estimates and associated assumptions are based on historical experience and various other factors that the management and the Board believe to be reasonable under the prevailing conditions. The results of these estimates and assumptions form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results

may differ from these estimates under different assumptions or conditions. The key areas of estimating uncertainty, which may have a significant effect on the amounts recognized in the financial statements, are discussed below:

#### **Provision for unearned premiums**

The unearned premium reserve is the unexpired portion of the premium which relates to business in force at the balance sheet date. Calculation of unearned premiums is performed by applying 1/365 method as specified in the Insurance Accounting Regulations, 2017.

The movement in the premium deficiency reserve is recorded as an expense in profit and loss account for the year, if any.

#### **Provision for outstanding claims (including IBNR)**

A liability for outstanding claims (including IBNR) is recognized in respect of all claims incurred up to the balance sheet date that is measured at the undiscounted value of expected future payments. An actuary carries out the valuation of IBNR claims based on guidelines issued by the Securities and Exchange Commission of Pakistan.

#### **Employees' retirement benefits**

The Company operates defined benefit pension fund and defined benefit gratuity fund for its employees. The accounting of these benefits is performed in accordance with International Accounting Standard (IAS) 19 – Employee Benefits.

#### **Impairment in value of investments**

All impairment losses are recognized in the profit and loss account. Provisions for impairment are reviewed at each balance sheet date and are adjusted to reflect the current best estimates. Changes in the provisions are recognized as income or expense in the profit and loss account.

Valuation of investment properties are also carried out by independent valuers having relevant professional qualifications.

#### **Useful lives of fixed assets**

The assets' residual values, useful lives and method for depreciation are reviewed at each financial year end and adjusted if impact on depreciation is significant.

#### **Premium due but unpaid and Amounts due from other insurers/reinsurers**

The Company reviews its premium due but unpaid and amounts due from other insurers / reinsurers portfolio to assess their recoverability and provision required there-against. While assessing this requirement, various factors including the delinquency and financial position of the counter party are considered.

## کمپنی کو درپیش بڑے خطرات اور غیر یقینی صورتحال

### اسٹریٹجک رسک

اسٹریٹجک رسک کمپنی کے اسٹریٹجک مقاصد اور کاروباری حکمت عملی کے فیصلے کا نتیجہ ہیں۔ کمپنی کے بورڈ آف ڈائریکٹرز نے ایک "ایگزیکٹو، رسک مینجمنٹ اینڈ کمپلائنس کمیٹی" قائم کر دی ہے جس کے ذریعہ یہ کمپنی ان خطرات کے انتظام کی موثر طریقے سے نگرانی کرتی ہے اور جہاں بھی ضروری ہو یہ کمپنی ان خطرات کو کم کرنے کے لیے حکمت عملی بناتی ہے۔

### کاروباری رسک

یہ خطرات کسی ادارے کے تجارتی جزو سے منسلک ہوتے ہیں۔ کمپنی کو متاثر کرنے والے ان خطرات کی چند مثالوں میں مارکیٹ شیئر کی کمی، مصنوعات کی قیمتوں کا تعین کرنے والے قواعد و ضوابط میں ترمیم یا کمپنی کے منافع کو کم کرنے والی دیگر ریگولیٹری تبدیلیاں بہت عام مثالیں ہیں۔

### آپریٹنگ رسک

ان میں آپریٹنگ واقعات کے نتیجے میں کمپنی کے وسائل کی قدر میں منفی تبدیلی کا خطرہ شامل ہوتا ہے جیسا کہ اندرونی نظام، ایپارٹس، طرہ کار یا کنٹرول وغیرہ کا ناکافی ہونا یا ان چیزوں کی ناکامی۔

### مالیاتی رسک

کمپنی کی سرگرمیاں مختلف مالیاتی خطرات سے نمٹنے کے لئے ظہور میں آتی ہیں۔ کمپنی کا مجموعی رسک مینجمنٹ پروگرام مالیاتی مارکیٹوں کی غیر متوقع صلاحیت پر توجہ مرکوز کرتا ہے اور مالی کارکردگی پر ممکنہ منفی اثرات کو کم کرنے کی کوشش کرتا ہے۔ کمپنی درج ذیل اہم ملاحظات میں بیان کردہ طریقے سے پچھلے سال کی نسبت اس سال بھی کسی چیز کی تبدیلی کے بغیر مالیاتی خطرے کے ظہور کا تسلسل سے انتظام کر رہی ہے۔ بورڈ آف ڈائریکٹرز پر کمپنی کے رسک مینجمنٹ فریم ورک کے قیام اور اس کی نگرانی کی مجموعی ذمہ داری ہے۔ کمپنی کی رسک مینجمنٹ پالیسیوں کی بہتری کے لئے بھی بورڈ ذمہ دار ہے۔ یہ خطرات مندرجہ ذیل اقسام میں تقسیم کیے گئے ہیں:

### کریڈٹ رسک (قرض کا خطرہ)

کریڈٹ رسک ایسا خطرہ ہے جو اس امکان سے پیدا ہوتا ہے کہ ایک مالی آلہ پر ایک پارٹی اپنی ذمہ داری کو ہٹانے میں ناکام ہو جائے اور دوسری پارٹی کو مالی نقصان پہنچا دے۔ کمپنی، مختلف صنعتوں میں بہت سی ہم منصب پارٹیوں کے ساتھ لین دین کا آغاز کرتے ہوئے اور ہم منصب پارٹیوں کے کریڈٹ کی اہلیت کا جائزہ لیتے ہوئے کریڈٹ کے ظہور کی نگرانی کے ذریعہ کریڈٹ رسک کنٹرول کرنے کی کوشش کرتی ہے۔

کریڈٹ رسک کا ارتکاز اس وقت ہوتا ہے جب کئی ہم منصب پارٹیاں ایک ہی قسم کی کاروباری سرگرمیاں کرتی ہیں۔ اس کے نتیجے میں، معاشی، سیاسی یا دیگر حالات میں کوئی بھی تبدیلی اسی طریقے سے ان کے معاہدے کو پورا کرنے کی صلاحیت پر اثر انداز ہوگی۔ مینجمنٹ، اگر ضرورت پڑے تو کلائنٹ کی پوشیدہ حقیقت کی نگرانی اور مشکوک اثاثہ جات کے لئے اشیاء کے روایتی تخمینوں کو برقرار رکھنے کے ذریعے، کمپنی کو کریڈٹ رسک میں پڑنے سے روکتی ہے یا اس خطرے کو کم کر دیتی ہے۔ مینجمنٹ کا خیال ہے کہ کریڈٹ رسک پر بہت زیادہ توجہ مرکوز کرنے کی ضرورت نہیں ہے کیونکہ کمپنی کے مالی اثاثہ جات مالیاتی لحاظ سے مضبوط اداروں میں ہے جو ادارے مختلف صنعتی شعبہ جات کا احاطہ کرتے ہوئے ہیں۔

خطرے کو کم کرنے کے لئے کمپنی کے پاس سرمایہ کاری کا ایک متنوع پورٹ فولیو ہے۔ اہم کریڈٹ رسک کے واقع ہونے کا تعلق اس پورٹ فولیو سرمایہ کاری کے ساتھ ہے جو حکومت پاکستان اور مالیاتی ادارے کے ساتھ رکھی جاتی ہے جیسا کہ مالیاتی بیانات کے ملاحظہ نمبر 10 میں مذکور ہے۔ کمپنی نے سرمایہ کاری کے بعض شقیں کے خلاف ایکشن بھی برقرار رکھی ہے جیسا کہ مالیاتی بیانات کے ملاحظہ نمبر 10 میں انکشاف کیا ہے۔

### مارکیٹ رسک

مارکیٹ رسک ایسا خطرہ ہے کہ جس میں مارکیٹ کے متغیرات جیسا کہ سود/منافع کی شرح، غیر ملکی کرنسی کی شرح اور ایکٹیوٹی کی قیمتوں وغیرہ میں تبدیلی کے نتیجے میں مالی وسائل کی منصفانہ قیمت یا مستقبل کے نقد بہاؤ میں کمی پیش ہو جائے گی۔ اصل مقصد قابل قبول پیرامیٹرز کے اندر رہتے ہوئے مارکیٹ رسک سے نمٹنے کا انتظام کرنا اور اسے کنٹرول کرنا ہے، جبکہ واپسی کو بہتر بنانا مقصود ہو۔ کمپنی کی کاروباری سرگرمیوں کے ساتھ منسلک مارکیٹ رسک مندرجہ ذیل ہیں:

### اے) سود/منافع کی شرح کا رسک

سود/منافع کی شرح کا رسک ایسا خطرہ ہے کہ جس میں مارکیٹ سود/منافع کی شرح میں تبدیلی کے نتیجے میں مالی وسائل کی منصفانہ قیمت یا مستقبل کے نقد بہاؤ میں کمی پیش ہو جائے گی۔ کمپنی سیکورٹیز میں سرمایہ کاری کرتا ہے اور اس کے پاس رقوم ہیں جس میں سود/منافع کی شرح کا رسک موجود ہے۔ کمپنی اس کرنسی میں سود/منافع کی شرح میں تبدیلی کو مدنظر رکھتے ہوئے سود/منافع کی شرح کے رسک کو محدود کرتی ہے جس کرنسی میں کمپنی کے نقد رقوم اور سرمایہ کاری کی نشان زدگی کی گئی ہوتی ہے۔

### بی) غیر ملکی کرنسی رسک

غیر ملکی کرنسی رسک ایسا خطرہ ہے جس میں غیر ملکی کرنسی کی شرح میں تبدیلیوں کی وجہ سے مالی وسائل کی منصفانہ قیمت یا مستقبل کے نقد بہاؤ میں تبدیلی آجائے گی۔ اس وقت کمپنی مادی طور پر کرنسی رسک میں مبتلا نہیں ہے کیونکہ زیادہ تر لین دین پاکستانی روپوں میں کیا جاتا ہے۔

### سی) قیمتوں کا رسک

قیمتوں کا رسک ایسا خطرہ ہے کہ جس میں مارکیٹ کی قیمتوں (سود/منافع کی شرح کے رسک یا کرنسی رسک کے علاوہ) میں تبدیلی کی وجہ سے مالیاتی وسائل کی منصفانہ قیمت میں کمی پیش واقع ہوگی، چاہے ان تبدیلیوں کی وجہ انفرادی مالیاتی وسائل یا اس کے اجراء کنندہ کے ساتھ مخصوص عوامل ہوں، یا مارکیٹ میں تجارت کیے جانے والے تمام بائیک جیسے مالیاتی وسائل پر اثر انداز ہونے والے عوامل ہوں۔ قیمتوں کے رسک سے متعلق مزید تفصیلات کے لئے، براہ کرم نوٹ نمبر 41 کی طرف رجوع کریں۔

### لیکویڈیٹی رسک (مائع جاتی خطرات)

لیکویڈیٹی رسک ایسا خطرہ ہے جس میں کمپنی اپنے پر لاگو ہونے والے مالی واجبات کو پورا کرنے میں کامیاب نہیں ہو سکے گی۔ متوقع لیکویڈیٹی رسک مینجمنٹ کا مطلب مناسب نقد رقم اور مارکیٹنگ سیکورٹیز کو برقرار رکھنا ہے۔ انتظامیہ، لیکویڈیٹی کی ضروریات کی نگرانی کرتی ہے تاکہ اس بات کو یقینی بنایا جاسکے کہ کسی بھی درپیش ذمہ

In our opinion and to the best of our information and according to the explanations given to us, the unconsolidated statement of financial position, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated statement of cash flows together with the notes forming part thereof, conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Insurance Ordinance, 2000 and the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of Company's affairs as at December 31, 2025, and the total comprehensive income, the changes in equity and its cash flows for the year then ended.

### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the unconsolidated financial statements of the current period. These matters were addressed in the context of our audit of the unconsolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the key audit matters:

S. No	Key audit matter(s)	How the matters were addressed in our audit
1	<p><b>Revenue Recognition</b></p> <p>(Refer notes 3.8.1 and 24 of the unconsolidated financial statements)</p> <p>The Company's gross premium earned amounts to Rs. 5,790,695 million which is generated from premium on insurance policies representing a significant element of the financial statements of the Company.</p> <p>Premium income is one of the key performance indicators of the Company. Because of the significance of the premium as key performance indicator and that it was considered as an area of significant audit risk as part of our audit process, we considered this area as a key audit matter.</p>	<p>Our audit procedures in respect of this matter included the following:</p> <ul style="list-style-type: none"> <li>- Obtained an understanding of and evaluated the design and implementation of key controls over the process of capturing, processing and recording of premiums;</li> <li>- Checked the premiums recorded on sample basis from the underlying policies issued to insurance contract holders;</li> <li>- Checked the policies on sample basis where premium was recorded close to year end and subsequent to year end to evaluate that revenue from premiums was recognized in the appropriate accounting period;</li> <li>- Recalculated the unearned portion of premium revenue based on insurance policy issued to ensure that appropriate amount has been recorded as revenue for the current period; and</li> <li>- Assessed the relevant presentation and disclosures made in the unconsolidated financial statements to ascertain whether these are in accordance with the accounting and reporting standards as applicable in Pakistan.</li> </ul>
2	<p><b>Valuation of Claims Liabilities including Provision for Incurred but Not Reported (IBNR) Claims Reserves</b></p> <p>(Refer notes 3.9 and 25 of the annexed unconsolidated financial statements)</p> <p>As at December 31, 2025, claims liabilities represent 20% (Rs. 1,462.891 million including Rs. 712.132 million of IBNR reserves) of its total liabilities (including Window Takaful Operations' Liabilities). Valuation of claim liabilities involves significant management judgment regarding uncertainty in the estimation of claims. Claims liabilities are recognized on intimation of the insured event based on management judgment and estimate.</p> <p>Provision for IBNR is calculated by the Company as required under Circular No. 9 of 2016 issued by the Securities and Exchange Commission of Pakistan based on the advice of actuary. The actuarial valuation process also involves significant judgment and the use of actuarial assumptions.</p> <p>Because of the significance of the impact of these judgments / estimations and assumptions used in determination of claims liabilities and calculation of provision for IBNR, we consider this area as key audit matter.</p>	<p>Our audit procedures in relation to this matter included amongst others:</p> <ul style="list-style-type: none"> <li>- Obtain an understanding of and evaluated the design and implementation of key controls over the process of capturing, determination and recording of claims liabilities;</li> <li>- Assessed the appropriateness of the Company's accounting policy for recognition and measurement of IBNR Reserve in line with requirements of laws, accounting and reporting standards as applicable in Pakistan;</li> <li>- Evaluated the completeness, accuracy and reliability of the underlying data utilized for the purposes of measurement by reference to its source;</li> <li>- Inspected the report submitted by the Management's Appointed Actuary for the year ended December 31, 2025, in respect of the IBNR reserves and the related methods and assumptions used for this purpose;</li> <li>- Involved an independent auditor's actuarial expert to assist us in evaluation of general principles, actuarial assumptions and methods used for actuarial valuations by the Company for calculation of provision for IBNR;</li> <li>- Checked the adequacy of IBNR reserves in accordance with applicable requirements and assessed consistency and reasonableness of actuarial methods with the prior year; and</li> <li>- Assessed the appropriateness of disclosures made in the financial statements to ascertain whether these are complied with the accounting and reporting standards as applicable in Pakistan.</li> </ul>

## Information Other than the Financial Statements and Auditor's Reports Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the unconsolidated financial statements and our auditor's report thereon.

Our opinion on the unconsolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the unconsolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the unconsolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of Management and Board of Directors for the Unconsolidated Financial Statements

Management is responsible for the preparation and fair presentation of the unconsolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan and the requirements of Insurance Ordinance, 2000 and, the Companies Act, 2017 (XIX of 2017), and for such internal control as management determines is necessary to enable the preparation of the unconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the unconsolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

## Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the unconsolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these unconsolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the unconsolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the unconsolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the unconsolidated financial statements, including the disclosures, and whether the unconsolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

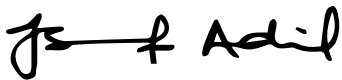

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the unconsolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- proper books of account have been kept by the Company as required by the Insurance Ordinance, 2000 and the Companies Act, 2017 (XIX of 2017);
- the unconsolidated statement of financial position, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated statement of cash flows together with the notes thereon have been drawn up in conformity with the Insurance Ordinance, 2000, the Companies Act, 2017 (XXI of 2017), and are in agreement with the books of account;
- investments made, expenditure incurred and guarantees extended during the year were for the purpose of the company's business; and;
- zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Company and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

The engagement partner on the audit resulting in this independent auditor's report is Mr. Shahzad Ali.

### 3.4 Insurance contracts

Insurance contracts are those contracts under which the Company as insurer has accepted insurance risk from the insurance contract holder (insured) by agreeing to compensate the insured if a specified uncertain future event (the insured event) adversely affects the insured. Once a contract has been classified as an insurance contract, it remains an insurance contract for the remainder of its tenure, even if the insurance risk reduces significantly during this period, unless all rights and obligations are extinguished or expired.

Insurance contracts are classified into following main categories, depending on the nature and duration of risk and whether or not the terms and conditions are fixed.

- Fire and property damage;
- Marine, aviation and transport;
- Motor;
- Health and accident; and
- Miscellaneous.

These contracts are normally one year insurance contracts except marine and miscellaneous classes. Normally all marine insurance contracts are of three months period. In miscellaneous class, some engineering insurance contracts are of more than one year period, whereas, normally travel insurance contracts and few bond insurance contracts in miscellaneous class expire within one month time.

These contracts are provided to all types of customers based on assessment of insurance risk by the Company. Normally personal insurance contracts e.g. vehicle, travel, personal accident, etc. are provided to individual customers, whereas, insurance contracts of fire and property, marine, aviation and transport, accident and health and other commercial line products are provided to commercial organizations.

Fire and property insurance contracts mainly compensate the Company's customers for damage suffered to their properties or for the value of property lost. Customers who undertake commercial activities on their premises could also receive compensation for the loss of earnings caused by the inability to use the insured properties in their business activities.

Marine insurance covers the loss or damage of vessels, cargo, terminals, and any transport or property by which cargo is transferred, acquired, or held between the points of origin and final destination.

Motor insurance provides protection against losses incurred as a result of theft, traffic accidents and against third party liability that could be incurred in an accident.

Health insurance includes coverage of in-patient-hospital, out-patient-department, medical and other related expenses of disease, sickness or accidental injury incurred during the period of insurance.

Liability insurance contracts protect the insured against the risk of causing harm to third parties as a result of their legitimate activities. Damages covered include both contractual and non-contractual events.

Other various types of insurance are classified in miscellaneous category which includes mainly engineering, terrorism, personal accident, worker compensation, travel, products of financial institutions, livestock and crop insurance etc.

The Company also accepts insurance risk pertaining to insurance contracts of other insurer as reinsurance inward. The insurance risk involved in these contracts is similar to the contracts undertaken by the Company as insurer.

#### ***Reinsurance contracts***

Those insurance contracts that are issued by one insurer (the reinsurer) to compensate another insurer (the cedant) for losses on one or more contracts issued by the cedant are reinsurance contracts. The Company enters into reinsurance contracts with both foreign and local reinsurers.

Those assets and liabilities which cannot be allocated to a particular segment on a reasonable basis are reported as unallocated corporate assets and liabilities.

### 3.21 Foreign currency transactions

Transactions in foreign currencies are translated into reporting currency at the rates of exchange prevailing at the date of transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date. All exchange differences are routed through profit and loss account.

### 3.22 Finance income

Finance income comprises interest income on funds invested, dividend income, exchange gain and changes in the fair value of financial assets at fair value through profit or loss - held for trading. Income on bank deposits is accrued on a time proportion basis using effective rate of interest. Income on investments is recognized on time proportion basis taking into account the effective yield of such securities. Dividend income on equity investments is recognized when the right to receive the payment is established. Foreign currency gains and losses are reported on a net basis.

### 3.23 Impairment of assets

#### a) Non-derivative financial assets

All financial assets are assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset, and that loss event(s) had an impact on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets are impaired includes default or delinquency by a debtor, restructuring of an amount due to the Company on terms that the Company would not consider otherwise, indications that a debtor or issuer will enter bankruptcy, adverse changes in the payment status of borrowers or issuers and economic conditions that correlate with defaults or the disappearance of an active market for a security.

The Company considers evidence of impairment for financial assets measured at amortized cost at both a specific asset and collective level. All individually significant assets are assessed for specific impairment. Those found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Assets that are not individually significant are collectively assessed for impairment by grouping together assets with similar risk characteristics.

In assessing collective impairment, the Company uses historical trends of the probability of default, the timing of recoveries and the amount of loss incurred, adjusted for management's judgement as to whether current economic and credit conditions are such that the actual losses are likely to be greater or lesser than suggested by historical trends.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognized in profit or loss and reflected in as allowance against financial asset measured at amortized cost. Interest on the impaired asset is recognized only to the extent it is considered recoverable. When an event occurring after the impairment was recognized causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

#### b) Non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognized if the carrying amount of an asset or cash-generating unit (CGU) exceeds its recoverable amount.

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2025

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

Impairment losses are recognized in profit or loss.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

### 3.24 Right of use assets and lease liability

A contract is, or contains a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. The Company mainly lease properties for its operations and recognizes a right-of use asset and lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, and subsequently at cost less any accumulated depreciation and impairment losses, and adjusted for certain remeasurements of the lease liability. The right-of-use asset is depreciated using the straight line method from the commencement date to the earlier of end of the useful life of the right-of-use asset or end of lease term. The estimated useful lives of assets are determined on the same basis as that for owned assets. In addition, the right-of-use asset is periodically reduced by impairment losses, if any.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the incremental borrowing rate of the Company. The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payments made. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, a change in assessment of whether extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised. The Company has elected not to recognize right-of-use assets and lease liabilities for short term and low value assets. The lease payments associated with these leases are recognized as an expense on a straight line basis over the lease term. The right-of-use assets are presented in the same line item as it presents underlying assets for the same nature it owns.

### 3.25 Dividend Distribution

Cash dividends declared, bonus shares issued and other reserves' appropriations are recognized in the year in which these announcements or appropriations are made.

### 3.26 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at cost. For the purposes of cash flow statement, cash and cash equivalents comprise cash balances and call deposits with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value, and are used by the Company in the management of its short-term commitments.

### 3.27 General Reserve

General reserve is maintained as per section 29 of Insurance Ordinance, 2000, which is higher of ten million rupees or 10% of minimum paid-up capital. The company is required to have minimum paid up capital of Rs. 700 million and as a result is required to maintain Rs. 70 million as General Reserve.

### 3.28 Change in Accounting Policy

During the year, the Securities and Exchange Commission of Pakistan (SECP) introduced certain amendments to the General Takaful Accounting Regulations, 2019 through S.R.O. 311(I)/2025. These amendments require insurers, who are undertaking Window Takaful Operations to disclose, in addition to the assets and liabilities of Operator's Fund (OPF), the assets and liabilities of Participants' Takaful Fund (PTF) as a single line item in their statement of financial position. This change has been applied as a change in accounting policy retrospectively, in accordance with the requirements of IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors".

#### 4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements in conformity with the requirements of accounting and reporting standards as applicable to insurance companies in Pakistan requires management to make judgments/estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. These judgements/estimates and assumptions are based on historical experience, current trends and various other factors that are believed to be reasonable under the circumstances, the result of which form the basis of making the estimates about carrying values of assets and liabilities that are not readily apparent from other sources.

Actual results may differ from their estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized in the year in which the estimate is revised if the revision affects only that year, or in the year of the revision and future years if the revision affects both current and future years.

In particular, the matters involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are discussed below:

##### a) *Income tax*

In making the estimates for income taxes currently payable by the Company, the management takes into account current income tax laws and the decisions of appellate authorities on certain issues in the past. In making the provision for deferred taxes, estimates of the Company's future taxable profits are taken into account.

##### b) *Fixed assets, depreciation and amortization*

In making estimates of the depreciation / amortization method, the management uses depreciation / amortization rate which reflects the pattern in which economic benefits are expected to be consumed by the Company. These rates are reviewed at each financial year end and if there is a change in the expected pattern of consumption of the future economic benefits embodied in the assets, the depreciation / amortization rates would be changed to reflect the change in pattern. Further, the assets' residual values are reviewed and adjusted if appropriate, at each financial year end.

##### c) *Outstanding claims including incurred but not reported (IBNR)*

The liability for IBNR is computed through Chain Ladder Method (Development technique) in light of the guidelines issued by Insurance Division of SECP vide its Circular 9 of 2016 dated March 09, 2016 for estimation of IBNR claims reserve, the liability for IBNR for all classes of business is based on actuary recommendation. Any significant change in assumption used event may affect the management's judgement which could affect the provision made for IBNR. Reinsurance recoveries against outstanding claims and salvage recoveries are recognized as an asset and are measured at the amount expected to be received.

##### d) *Premium deficiency reserves*

The Company carries out an analysis of loss / combined ratios for the expired year, such ratio being calculated after taking into account the relevant IBNR provision for the determination of premium deficiency reserve for each class of business.

##### e) *Defined benefit plan*

Defined benefit plan is provided to eligible employees of the Company. Calculations in this respect require assumptions to be made of future outcomes, the principal ones being in respect of increase in remuneration, the expected long-term return on

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2025

plan assets and the discount rate used to convert future cash flows to current values. Calculations are sensitive to changes in the underlying assumptions.

**f) Impairment**

The carrying amount of the Company's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment loss. If any such indication exists, recoverable amount is estimated in order to determine the extent of impairment loss, if any. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. Provisions for impairment are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

**g) Provision against premium due but unpaid & amount due from other insurers/reinsurers**

The Company reviews its premium due but unpaid and amounts due from other insurers / reinsurers portfolio to assess their recoverability and provision required there-against. While assessing this requirement, various factors including the delinquency and financial position of the counter party are considered.

**h) Classification of investments**

In classifying investments as "fair value through profit and loss" the Company has determined securities which are acquired with the intention to trade by taking advantage of short term market / interest rate movements.

In classifying investments as "held-to-maturity" the Company has determined financial assets with fixed or determinable payments and fixed maturity. In making this judgement, the Company evaluates its intention and ability to hold such investments to maturity.

The investments which are not classified as fair value through profit and loss or held to maturity are classified as available for sale.

**i) Allocation of management expenses**

Management expenses which are not specifically related to a class of business are allocated on all classes of business on equitable basis.

**j) Provisions**

A provision is recognized in the statement of financial position when the Company has a legal or constructive obligation as a result of past event and it is probable that outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation.

**k) Fair value of investments**

The fair value of held for trading and available for sale investments is determined by reference to their quoted closing repurchase price at the reporting date. Any change in the estimate might effect carrying amounts of investments held for trading with corresponding effect in profit and loss account. Fair value of held to maturity instruments is determined with reference to general interest rates prevailing in the market. Fair value of held to maturity investments is determined for disclosure purpose only.

**l) Lease term**

The Company applies judgement to determine the lease term for some lease contracts in which it is a lessee that includes renewal options. The assessment of whether the Company is reasonably certain to exercise such options impacts the lease term, which significantly affects the amount of lease liability and right of use assets recognized.

**13.9 Sensitivity Analysis**

The calculation of the defined benefit obligation is sensitive to the assumption used. The following table summarizes the impact on the defined benefit obligation at the end of the reporting period as a result of a change in the respective assumptions by one percent.

	Increase / decrease in defined benefit obligation			
	2025		2024	
	Rupees in thousand			
	1% increase	1% decrease	1% increase	1% decrease
Discount rate	296,657	345,562	261,391	305,567
Future salary growth	345,575	296,134	305,587	260,916

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit obligation recognized within the statement of financial position.

\* The Company has not disclosed the fair value of these items because their carrying amounts are a reasonable approximation of fair value. Fair value is an amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction. Consequently, differences may arise between the carrying values and the fair values estimates.

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

#### 41 MANAGEMENT OF FINANCIAL AND INSURANCE RISK

##### 41.1 Financial risk

The Company's activities exposes it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest / mark-up rate risk and price risk). The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance. The Company consistently manages its exposure to financial risk without any material change from previous year in the manner described in notes below.

The Board of Directors has overall responsibility for the establishment and oversight of Company's risk management framework. The Board is also responsible for developing the Company's risk management policies.

##### i) Credit risk

Credit risk is the risk that arises with the possibility that one party to a financial instrument will fail to discharge its obligation and cause the other party to incur a financial loss. The Company attempts to control credit risk by monitoring credit exposures by undertaking transactions with a large number of counterparties in various industries and by continually assessing the credit worthiness of counterparties.

Concentration of credit risk occurs when a number of counterparties have a similar type of business activities. As a result, any change in economic, political or other conditions would effect their ability to meet contractual obligations in similar manner. The management monitors and limits the Company's exposure to credit risk through monitoring of client's exposure and maintaining conservative estimates of provisions for doubtful assets, if required. The management believes it is not exposed to significant concentration of credit risk as its financial assets are adequately diversified in entities of sound financial standing, covering various industrial sectors.

#### iii) Market risk

a) Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of change in market variable such as interest / mark up rate, foreign exchange rate and equity prices. The objective is to manage and control market risk exposures within acceptable parameters, while optimizing the return. The market risks associated with the Company's business activities are interest / mark up rate risk and price risk.

#### Interest / mark up rate risk

Interest / mark-up rate risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in the market interest / mark up rates. The Company invests in securities and has deposits that are subject to interest / mark up rates risk. The Company limits interest / mark up rate risk by monitoring changes in interest / mark up rates in the currencies in which its cash and investments are denominated. The Company's financial liabilities are not exposed to interest / mark up rate risk. At the balance sheet date exposure to interest bearing financial assets is as follows:

# NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

**b) Foreign currency risk**

Foreign currency risk is the risk that fair value or future cash flows of financial instruments will fluctuate because of changes in foreign exchange rates. The Company, at present, is not materially exposed to currency risk as majority of the transactions are carried out in Pak Rupees.

**c) Price risk**

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or foreign currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

The Company's listed securities are susceptible to market price risk arising from uncertainties about the future value of investment securities. The Company limits market risk by maintaining a diversified portfolio and by continuous monitoring of developments in equity market.

The following table summarises the Company's price risk as at December 31, 2025 and 2024. It shows the effects of an estimated increase of 10% in the market prices as on those dates. A decrease of 10% in the fair values of the listed securities would affect it in a similar and opposite manner.

	Fair value	Price change	Effect on fair value
	Rupees in thousand		Rupees in thousand
December 31, 2025	2,897,034	+10%	289,703

December 31, 2024	1,652,671	+10%	165,267
	1,652,671	-10%	(165,267)

**iv) Fair value of financial instruments**

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. The carrying values of all financial assets and financial liabilities approximate their fair values except for available for sale and held to maturity investments whose fair values are determined for disclosure purpose only and have been disclosed in their respective notes to these financial statements.

# NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

## FOR THE YEAR ENDED 31 DECEMBER 2025

### Determination of fair values

Fair values have been determined for measurement / or disclosure purpose based on the following methods:

#### Investment in fair value through profit and loss account - held for trading

The fair value of held for trading investment is determined by reference to their closing repurchase price / price quoted on the stock exchange at the reporting date.

#### Available-for-sale investment

The fair value of available for sale investment is determined by reference to their closing repurchase price / price quoted on the stock exchange at the reporting date. They are being carried at fair value.

#### Held to maturity investment

Fair value for held to maturity investment is estimated as the present values of future cash flows, discounted at the market rate of interest at the reporting date. They are being carried at fair value.

#### Non-derivatives financial assets and liabilities

The fair value is estimated based on the present values of future cash flows, discounted at the market rate of interest at the reporting date. However, since these assets and liabilities are due to be settled within one year, their fair values approximate their carrying values.

### v) Capital management

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and to maintain a strong capital base to support the sustained development of its business.

The Company manages its capital structure by monitoring return on net assets and makes adjustments to it in the light of changes in economic conditions.

In accordance with the requirements of the Insurance Rules, 2017 issued by the SECP, minimum paid-up capital requirement to be complied with by insurance/ takaful companies as at December 31, 2017 and for subsequent years is Rs. 500 million. As at December 31, 2025, the Company's paid-up capital is in excess of the prescribed limit.

### 41.2 Insurance risk

The risk under any one insurance contract is the possibility that the insured event occurs and the uncertainty of the amount of the resulting claim. By the very nature of an insurance contract, this risk is random and therefore unpredictable. The principal risk that the Company faces under its insurance contracts is that the actual claims exceed the carrying amount of the insurance liabilities. This could occur because the frequency or severity of claims is greater than estimated. Insurance events are random, and the actual number and amount of claims will vary from year to year from the level established.

Based on past experience, management is of the view that the larger the portfolio of similar insurance contracts, the smaller the relative variability about the expected outcome is. In addition, a more diversified portfolio is less likely to be affected by a change in any subset of the portfolio. The Company has developed its insurance underwriting strategy to diversify the type of insurance risks accepted and within each of these categories to achieve a sufficiently large population of risks to reduce the variability of the expected outcome.

Factors that aggravate insurance risk include lack of risk diversification in terms of type and amount of risk, geographical location and type of industry covered.

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2025

### (a) Frequency and severity of claims

Political, environmental, economical and climatic changes give rise to more frequent and severe extreme events (for example, fire, theft, steal, riot and strike, explosion, earthquake, atmospheric damage, hurricanes, typhoons, river flooding, electric fluctuation, terrorism, war risk, damages occurring in inland transit, burglary, loss of cash in safe and cash in transit, travel and personal accident, money losses, engineering losses and other events) and their consequences (for example subsidence claims). For certain contracts, the Company has also limited the number of claims that can be paid in any policy year or introduced a maximum amount payable for claims in any policy year.

Insurance contracts which are divided into direct and facultative arrangements are further subdivided into five segments: fire, marine, motor, accident and health and miscellaneous. The insurance risk arising from these contracts is concentrated in the territories in which the Company operates, and there is a balance between commercial and personal properties / assets in the overall portfolio of insured properties / assets. The Company underwrites insurance contract in Pakistan.

The Company manages these risks through its underwriting strategy, adequate reinsurance arrangements and proactive claims handling.

The underwriting strategy attempts to ensure that the underwritten risks are well diversified in terms of type and amount of risk, industry and geography. The Company has the right to re-price the risk on renewal. It also has the ability to impose deductibles and reject fraudulent claims. Insurance contracts also entitle the Company to pursue third parties for payment of some or all costs (for example, subrogation). The claim payments are limited to the extent of sum insured on occurrence of the insured event.

The Company has entered into reinsurance cover / arrangements with local and foreign reinsurers having good credit rating by reputable rating agencies, to reduce its exposure to risks and resulting claims. Keeping in view the maximum exposure in respect of key zone aggregates, a number of proportional and non-proportional facultative reinsurance arrangements are in place to protect the net account in case of a major catastrophe. The effect of such reinsurance arrangements is that the Company recovers the share of claims from reinsurers thereby reducing its exposure to risk. Apart from the adequate event limit which is a multiple of the treaty capacity or the primary recovery from the proportional reinsurance arrangements, any loss over and above the said limit would be recovered under non-proportional treaty which is very much in line with the risk management philosophy of the Company. In compliance of the regulatory requirement, the reinsurance agreements are duly submitted with Securities and Exchange Commission of Pakistan on an annual basis.

The Company has claims department dealing with the mitigation of risks surrounding claims incurred whether reported or not. This department investigates and settles all claims based on surveyor's report / assessment. The unsettled claims are reviewed individually on a periodic basis and adjusted to reflect the latest information on the underlying facts, contractual terms and conditions, and other factors. The Company actively manages and pursues early settlements of claims to reduce its exposure to unpredictable developments.

### (b) Sources of uncertainty in the estimation of future claim payments

Claims reported and otherwise are analyzed separately. The development of large losses / catastrophes is analyzed separately. The shorter settlement year for claims allows the Company to achieve a higher degree of certainty about the estimated cost of claims including IBNR. However, the longer time needed to assess the emergence of a subsidence claim makes the estimation process more uncertain for these claims.

The estimated cost of claims includes direct expenses to be incurred in settling claims, net of the expected subrogation value, reinsurance and other recoveries. The Company takes all reasonable steps to ensure that it has appropriate information regarding its claims exposures. However, given the uncertainty in establishing claims provisions, it is likely that the final outcome may be different from the original liability established. The liability comprises amount in relations to unpaid reported claims, claims incurred but not reported (IBNR), expected claims settlement costs and a provision for unexpired risks at the end of the reporting year.

Liability in respect of outstanding claims is based on the best estimate of the claims intimated or assessed. In calculating the estimated cost of unpaid claims (both reported and not), the Company estimation techniques are a combination of loss-ratio-based estimates (where the loss ratio is defined as the ratio between the ultimate cost of insurance claims and insurance premiums earned in a prior financial years in relation to such claims) and an estimate based upon actual claims experience using predetermined basis where greater weight is given to actual claims experience as time passes.

In estimating the liability for the cost of reported claims not yet paid, the Company considers any information available from surveyor's assessment and information on the cost of settling claims with similar characteristics in previous years. Claims are assessed on a case-by-case basis separately.

(c) **Key assumptions**

The principal assumption underlying the liability estimation of IBNR and Premium Deficiency Reserves is that the Company's future claim development will follow similar historical pattern for occurrence and reporting. The management uses qualitative judgement to assess the extent to which past occurrence and reporting pattern will not apply in future. The judgement includes external factors e.g. treatment of one-off occurrence claims, changes in market factors, economic conditions, etc.

(d) **Changes in assumptions**

The Company did not change its assumptions for the insurance contracts as disclosed in above (b) and (c).

(e) **Sensitivity analysis**

The risks associated with the insurance contracts are complex and subject to number of variables which complicate quantitative sensitivity analysis. The Company makes various assumptions and techniques based on past claims development experience. This includes indications such as average claims cost, ultimate claim numbers and expected loss ratios. The Company considers that the liability for insurance claims recognized in the balance sheet is adequate. However, actual experience will differ from the expected outcome.

As the Company enters into short term insurance contracts, it does not assume any significant impact of changes in market conditions on unexpired risks. However, some results of sensitivity testing are set out below, showing the impact on profit before tax net of reinsurance.

	Profit before tax		Shareholders' equity	
	2025	2024	2025	2024
Rupees in thousand				
<b>10% increase in loss</b>

	(75,302)	(67,267)	(45,934)	(41,033)

A 10% decrease would have had equal but opposite effect on the profit and loss account and shareholders' equity.

**Cash flow sensitivity analysis for variable rate instruments**

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, to the Company's profit before tax and equity based upon closing balances and rates:

December 31, 2024	100	5,433	3,640
	-100	(5,433)	(3,640)

(f) **Concentration of insurance risk**

A concentration of risk may also arise from a single insurance contract issued to a particular type of policyholder, within a geographical location or to types of commercial business. The Company minimizes its exposure to significant losses by obtaining reinsurance from a number of reinsurers, who are dispersed over several geographical regions.

To optimize benefits from the principle of average and law of large numbers, geographical spread of risk is of extreme importance. There are a number of parameters which are significant in assessing the accumulation of risks with reference to the geographical location, the most important of which is risk survey. The concentration of risk by type of contracts is summarized below by reference to liabilities.

## INDEPENDENT AUDITORS' REPORT

### To the members of Askari General Insurance Company Limited Report on the Audit of the Consolidated Financial Statements

#### Opinion

We have audited the annexed consolidated financial statements of Askari General Insurance Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at December 31, 2025, and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended, and notes to the consolidated financial statements, including material accounting policy and other explanatory information.

In our opinion, consolidated financial statements give a true and fair view of the consolidated financial position of the group as at December 31, 2025, and its consolidated financial performance and its consolidated cashflows for the year then ended in accordance with the accounting and reporting standards as applicable in Pakistan.

#### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the key audit matters:

S. No	Key audit matter(s)	How the matters were addressed in our audit
1	<p><b>Revenue Recognition</b></p> <p>(Refer notes 3.8.1 and 24 of the consolidated financial statements)</p> <p>The group's gross premium earned amounts to Rs. 5,787,368 million which is generated from premium on insurance policies representing a significant element of the consolidated financial statements of the Group.</p> <p>Premium income is one of the key performance indicators of the Company. Because of the significance of the premium as key performance indicator and that it was considered as an area of significant audit risk as part of our audit process, we considered this area as a key audit matter.</p>	<p>Our audit procedures in respect of this matter included the following:</p> <ul style="list-style-type: none"> <li>- Obtained an understanding of and evaluated the design and implementation of key controls over the process of capturing, processing and recording of premiums;</li> <li>- Checked the premiums recorded on sample basis from the underlying policies issued to insurance contract holders;</li> <li>- Checked the policies on sample basis where premium was recorded close to year end and subsequent to year end to evaluate that revenue from premiums was recognized in the appropriate accounting period;</li> <li>- Recalculated the unearned portion of premium revenue based on insurance policy issued to ensure that appropriate amount has been recorded as revenue for the current period; and</li> <li>- Assessed the relevant presentation and disclosures made in the unconsolidated financial statements to ascertain whether these are in accordance with the accounting and reporting standards as applicable in Pakistan.</li> </ul>
2	<p><b>Valuation of Claims Liabilities including Provision for Incurred but Not Reported (IBNR) Claims Reserves</b></p> <p>(Refer notes 3.9 and 25 of the annexed unconsolidated financial statements)</p> <p>As at December 31, 2025, claims liabilities represent 20% (Rs. 1,462.891 million including Rs. 712.132 million of IBNR reserves) of its total liabilities (including Window Takaful Operations' Liabilities). Valuation of claim liabilities involves significant management judgment regarding uncertainty in the estimation of claims. Claims liabilities are recognized on intimation of the insured event based on management judgment and estimate. Provision for IBNR is calculated by the Company as required under Circular No. 9 of 2016 issued by the Securities and Exchange Commission of Pakistan based on the advice of actuary. The actuarial valuation process also involves significant judgment and the use of actuarial assumptions.</p> <p>Because of the significance of the impact of these judgments / estimations and assumptions used in determination of claims liabilities and calculation of provision for IBNR, we consider this area as key audit matter.</p>	<p>Our audit procedures in relation to this matter included amongst others:</p> <ul style="list-style-type: none"> <li>- Obtain an understanding of and evaluated the design and implementation of key controls over the process of capturing, determination and recording of claims liabilities;</li> <li>- Assessed the appropriateness of the Company's accounting policy for recognition and measurement of IBNR Reserve in line with requirements of laws, accounting and reporting standards as applicable in Pakistan;</li> <li>- Evaluated the completeness, accuracy and reliability of the underlying data utilized for the purposes of measurement by reference to its source;</li> <li>- Inspected the report submitted by the Management's Appointed Actuary for the year ended December 31, 2025, in respect of the IBNR reserves and the related methods and assumptions used for this purpose.</li> <li>- Involved an independent auditor's actuarial expert to assist us in evaluation of general principles, actuarial assumptions and methods used for actuarial valuations by the Company for calculation of provision for IBNR;</li> <li>- Checked the adequacy of IBNR reserves in accordance with applicable requirements and assessed consistency and reasonableness of actuarial methods with the prior year; and</li> <li>- Assessed the appropriateness of disclosures made in the financial statements to ascertain whether these are complied with the accounting and reporting standards as applicable in Pakistan.</li> </ul>

## Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of Management and Board of Directors for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan and the requirements of Insurance Ordinance, 2000 and, the Companies Act, 2017 (XIX of 2017), and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of directors are responsible for overseeing the Group's financial reporting process.

## Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

# ◆ YOUSUF ADIL

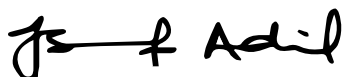

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Mr. Shahzad Ali.

### 3.4 Insurance contracts

Insurance contracts are those contracts under which the Company as insurer has accepted insurance risk from the insurance contract holder (insured) by agreeing to compensate the insured if a specified uncertain future event (the insured event) adversely affects the insured. Once a contract has been classified as an insurance contract, it remains an insurance contract for the remainder of its tenure, even if the insurance risk reduces significantly during this period, unless all rights and obligations are extinguished or expired.

Insurance contracts are classified into following main categories, depending on the nature and duration of risk and whether or not the terms and conditions are fixed.

- Fire and property damage;
- Marine, aviation and transport;
- Motor;
- Health and accident; and
- Miscellaneous.

These contracts are normally one year insurance contracts except marine and miscellaneous classes. Normally all marine insurance contracts are of three months period. In miscellaneous class, some engineering insurance contracts are of more than one year period, whereas, normally travel insurance contracts and few bond insurance contracts in miscellaneous class expire within one month time.

These contracts are provided to all types of customers based on assessment of insurance risk by the Company. Normally personal insurance contracts e.g. vehicle, travel, personal accident, etc. are provided to individual customers, whereas, insurance contracts of fire and property, marine, aviation and transport, accident and health and other commercial line products are provided to commercial organizations.

Fire and property insurance contracts mainly compensate the Company's customers for damage suffered to their properties or for the value of property lost. Customers who undertake commercial activities on their premises could also receive compensation for the loss of earnings caused by the inability to use the insured properties in their business activities.

Marine insurance covers the loss or damage of vessels, cargo, terminals, and any transport or property by which cargo is transferred, acquired, or held between the points of origin and final destination.

Motor insurance provides protection against losses incurred as a result of theft, traffic accidents and against third party liability that could be incurred in an accident.

Health insurance includes coverage of in-patient-hospital, out-patient-department, medical and other related expenses of disease, sickness or accidental injury incurred during the period of insurance.

Other various types of insurance are classified in miscellaneous category which includes mainly engineering, terrorism, personal accident, worker compensation, travel, products of financial institutions, livestock and crop insurance etc.

The Company also accepts insurance risk pertaining to insurance contracts of other insurer as reinsurance inward. The insurance risk involved in these contracts is similar to the contracts undertaken by the Company as insurer.

The deferred portion of premium expense is recognized as prepayment.

Reinsurance liabilities or assets are derecognized when the contractual rights are extinguished or expired.

The Company assesses its reinsurance assets for impairment on balance sheet date. Income on bank deposits is accrued on a time proportion basis using effective rate of interest. Income on investments is recognized on time proportion basis taking into account the effective yield of such securities. Dividend income on equity investments is recognized when the right to receive the payment is established. Foreign currency gains and losses are reported on a net basis.

### 3.23 Impairment of assets

#### a) Non-derivative financial assets

All financial assets are assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset, and that loss event(s) had an impact on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets are impaired includes default or delinquency by a debtor, restructuring of an amount due to the Company on terms that the Company would not consider otherwise, indications that a debtor or issuer will enter bankruptcy, adverse changes in the payment status of borrowers or issuers and economic conditions that correlate with defaults or the disappearance of an active market for a security.

The Company considers evidence of impairment for financial assets measured at amortized cost at both a specific asset and collective level. All individually significant assets are assessed for specific impairment. Those found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Assets that are not individually significant are collectively assessed for impairment by grouping together assets with similar risk characteristics.

In assessing collective impairment, the Company uses historical trends of the probability of default, the timing of recoveries and the amount of loss incurred, adjusted for management's judgement as to whether current economic and credit conditions are such that the actual losses are likely to be greater or lesser than suggested by historical trends.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognized in profit or loss and reflected in as allowance against financial asset measured at amortized cost. Interest on the impaired asset is recognized only to the extent it is considered recoverable. When an event occurring after the impairment was recognized causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

#### b) Non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognized if the carrying amount of an asset or cash-generating unit (CGU) exceeds its recoverable amount. The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects

## NOTES TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2025

current market assessments of the time value of money and the risks specific to the asset or CGU. For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

Impairment losses are recognized in profit or loss.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

### 3.24 Right of use assets and lease liability

A contract is, or contains a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. The Company mainly lease properties for its operations and recognizes a right-of use asset and lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, and subsequently at cost less any accumulated depreciation and impairment losses, and adjusted for certain remeasurements of the lease liability. The right-of-use asset is depreciated using the straight line method from the commencement date to the earlier of end of the useful life of the right-of-use asset or end of lease term. The estimated useful lives of assets are determined on the same basis as that for owned assets. In addition, the right-of-use asset is periodically reduced by impairment losses, if any. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the incremental borrowing rate of the Company. The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payments made. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, a change in assessment of whether extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised. The Company has elected not to recognize right-of-use assets and lease liabilities for short term and low value assets. The lease payments associated with these leases are recognized as an expense on a straight line basis over the lease term. The right-of-use assets are presented in the same line item as it presents underlying assets for the same nature it owns.

### 3.25 Dividend Distribution

Cash dividends declared, bonus shares issued and other reserves' appropriations are recognized in the year in which these announcements or appropriations are made.

### 3.26 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at cost. For the purposes of cash flow statement, cash and cash equivalents comprise cash balances and call deposits with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value, and are used by the Company in the management of its short-term commitments.

### 3.27 Change in Accounting Policy

During the year, the Securities and Exchange Commission of Pakistan (SECP) introduced certain amendments to the General Takaful Accounting Regulations, 2019 through S.R.O. 311(I)/2025. These amendments require insurers, who are undertaking Window Takaful Operations to disclose, in addition to the assets and liabilities of Operator's Fund (OPF), the assets and liabilities of Participants' Takaful Fund (PTF) as a single line item in their statement of financial position. This change has been applied as a change in accounting policy retrospectively, in accordance with the requirements of IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors".

### 4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements in conformity with the requirements of accounting and reporting standards as applicable to insurance companies in Pakistan requires management to make judgments/estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. These judgments/estimates and assumptions are based on historical experience, current trends and various other factors that are believed to be reasonable under the circumstances, the result of which form the basis of making the estimates about carrying values of assets and liabilities that are not readily apparent from other sources.

Actual results may differ from their estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized in the year in which the estimate is revised if the revision affects only that year, or in the year of the revision and future years if the revision affects both current and future years.

In particular, the matters involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are discussed below:

#### a) *Income tax*

In making the estimates for income taxes currently payable by the Company, the management takes into account current income tax laws and the decisions of appellate authorities on certain issues in the past. In making the provision for deferred taxes, estimates of the Company's future taxable profits are taken into account.

#### b) *Fixed assets, depreciation and amortization*

In making estimates of the depreciation / amortization method, the management uses depreciation / amortization rate which reflects the pattern in which economic benefits are expected to be consumed by the Company. These rates are reviewed at each financial year end and if there is a change in the expected pattern of consumption of the future economic benefits embodied in the assets, the depreciation / amortization rates would be changed to reflect the change in pattern. Further, the assets' residual values are reviewed and adjusted if appropriate, at each financial year end.

#### c) *Outstanding claims including incurred but not reported (IBNR)*

The liability for IBNR is computed through Chain Ladder Method (Development technique) in light of the guidelines issued by Insurance Division of SECP vide its Circular 9 of 2016 dated March 09, 2016 for estimation of IBNR claims reserve, the liability for IBNR for all classes of business is based on actuary recommendation. Any significant change in assumption used event may affect the management's judgement which could affect the provision made for IBNR. Reinsurance recoveries against outstanding claims and salvage recoveries are recognized as an asset and are measured at the amount expected to be received.

#### d) *Premium deficiency reserves*

The Company carries out an analysis of loss / combined ratios for the expired year, such ratio being calculated after taking into account the relevant IBNR provision for the determination of premium deficiency reserve for each class of business.

#### e) *Defined benefit plan*

Defined benefit plan is provided to eligible employees of the Company. Calculations in this respect require assumptions to be made of future outcomes, the principal ones being in respect of increase in remuneration, the expected long-term return on plan assets and the discount rate used to convert future cash flows to current values. Calculations are sensitive to changes in the underlying assumptions.

#### f) *Impairment*

The carrying amount of the Company's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment loss. If any such indication exists, recoverable amount is estimated in order to determine the extent of impairment loss, if any. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. Provisions for impairment are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

#### g) *Provision against premium due but unpaid & amount due from other insurers/reinsurers*

The Company reviews its premium due but unpaid and amounts due from other insurers / reinsurers portfolio to assess their recoverability and provision required there-against. While assessing this requirement, various factors including the delinquency and financial position of the counter party are considered.

## NOTES TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2025

### h) *Classification of investments*

In classifying investments as "fair value through profit and loss" the Company has determined securities which are acquired with the intention to trade by taking advantage of short term market / interest rate movements.

In classifying investments as "held-to-maturity" the Company has determined financial assets with fixed or determinable payments and fixed maturity. In making this judgement, the Company evaluates its intention and ability to hold such investments to maturity.

The investments which are not classified as fair value through profit and loss or held to maturity are classified as available for sale.

### i) *Allocation of management expenses*

Management expenses which are not specifically related to a class of business are allocated on all classes of business on equitable basis.

### j) *Provisions*

A provision is recognized in the statement of financial position when the Company has a legal or constructive obligation as a result of past event and it is probable that outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation.

### k) *Fair value of investments*

The fair value of held for trading and available for sale investments is determined by reference to their quoted closing repurchase price at the reporting date. Any change in the estimate might effect carrying amounts of investments held for trading with corresponding effect in profit and loss account. Fair value of held to maturity instruments is determined with reference to general interest rates prevailing in the market. Fair value of held to maturity investments is determined for disclosure purpose only.

### l) *Lease term*

The Company applies judgement to determine the lease term for some lease contracts in which it is a lessee that includes renewal options. The assessment of whether the Company is reasonably certain to exercise such options impacts the lease term, which significantly affects the amount of lease liability and right of use assets recognized.

### 13.9 Sensitivity Analysis

The calculation of the defined benefit obligation is sensitive to the assumption used. The following table summarizes the impact on the defined benefit obligation at the end of the reporting period as a result of a change in the respective assumptions by one percent.

	Increase / decrease in defined benefit obligation			
	2025		2024	
	Rupees in thousand			
	1% increase	1% decrease	1% increase	1% decrease
Discount rate	296,657	345,562	261,391	305,567
Future salary growth	345,575	296,134	305,587	260,916

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit obligation recognized within the statement of financial position.

\* The Company has not disclosed the fair value of these items because their carrying amounts are a reasonable approximation of fair value. Fair value is an amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction. Consequently, differences may arise between the carrying values and the fair values estimates.

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

### 41 MANAGEMENT OF FINANCIAL AND INSURANCE RISK

#### 41.1 Financial risk

The Company's activities exposes it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest / mark-up rate risk and price risk). The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance. The Company consistently manages its exposure to financial risk without any material change from previous year in the manner described in notes below.

The Board of Directors has overall responsibility for the establishment and oversight of Company's risk management framework. The Board is also responsible for developing the Company's risk management policies.

#### i) Credit risk

Credit risk is the risk that arises with the possibility that one party to a financial instrument will fail to discharge its obligation and cause the other party to incur a financial loss. The Company attempts to control credit risk by monitoring credit exposures by undertaking transactions with a large number of counterparties in various industries and by continually assessing the credit worthiness of counterparties.

Concentration of credit risk occurs when a number of counterparties have a similar type of business activities. As a result, any change in economic, political or other conditions would effect their ability to meet contractual obligations in similar manner. The management monitors and limits the Company's exposure to credit risk through monitoring of client's exposure and maintaining conservative estimates of provisions for doubtful assets, if required. The management believes it is not exposed to significant concentration of credit risk as its financial assets are adequately diversified in entities of sound financial standing, covering various industrial sectors.

### iii) Market risk

a) Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of change in market variable such as interest / mark up rate, foreign exchange rate and equity prices. The objective is to manage and control market risk exposures within acceptable parameters, while optimizing the return. The market risks associated with the Company's business activities are interest / mark up rate risk and price risk.

#### Interest / mark up rate risk

Interest / mark-up rate risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in the market interest / mark up rates. The Company invests in securities and has deposits that are subject to interest / mark up rates risk. The Company limits interest / mark up rate risk by monitoring changes in interest / mark up rates in the currencies in which its cash and investments are denominated. The Company's financial liabilities are not exposed to interest / mark up rate risk. At the balance sheet date exposure to interest bearing financial assets is as follows:

## NOTES TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2025

			<b>1,857,242</b>	<b>2,460,964</b>

**b) Foreign currency risk**

Foreign currency risk is the risk that fair value or future cash flows of financial instruments will fluctuate because of changes in foreign exchange rates. The Company, at present, is not materially exposed to currency risk as majority of the transactions are carried out in Pak Rupees.

**c) Price risk**

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or foreign currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

The Company's listed securities are susceptible to market price risk arising from uncertainties about the future value of investment securities. The Company limits market risk by maintaining a diversified portfolio and by continuous monitoring of developments in equity market.

The following table summarises the Company's price risk as at December 31, 2025 and 2024. It shows the effects of an estimated increase of 10% in the market prices as on those dates. A decrease of 10% in the fair values of the listed securities would affect it in a similar and opposite manner.

	Fair value	Price change	Effect on fair value

**iv) Fair value of financial instruments**

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. The carrying values of all financial assets and financial liabilities approximate their fair values except for available for sale and held to maturity investments whose fair values are determined for disclosure purpose only and have been disclosed in their respective notes to these financial statements.

## NOTES TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2025

### Determination of fair values

Fair values have been determined for measurement / or disclosure purpose based on the following methods:

#### Investment in fair value through profit and loss account - held for trading

The fair value of held for trading investment is determined by reference to their closing repurchase price / price quoted on the stock exchange at the reporting date.

#### Available-for-sale investment

The fair value of available for sale investment is determined by reference to their closing repurchase price / price quoted on the stock exchange at the reporting date. They are being carried at fair value.

#### Held to maturity investment

Fair value for held to maturity investment is estimated as the present values of future cash flows, discounted at the market rate of interest at the reporting date. They are being carried at fair value.

#### Non-derivatives financial assets and liabilities

The fair value is estimated based on the present values of future cash flows, discounted at the market rate of interest at the reporting date. However, since these assets and liabilities are due to be settled within one year, their fair values approximate their carrying values.

### v) Capital management

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and to maintain a strong capital base to support the sustained development of its business.

The Company manages its capital structure by monitoring return on net assets and makes adjustments to it in the light of changes in economic conditions.

In accordance with the requirements of the Insurance Rules, 2017 issued by the SECP, minimum paid-up capital requirement to be complied with by insurance/ takaful companies as at December 31, 2017 and for subsequent years is Rs. 500 million. As at December 31, 2025, the Company's paid-up capital is in excess of the prescribed limit.

### 41.2 Insurance risk

The risk under any one insurance contract is the possibility that the insured event occurs and the uncertainty of the amount of the resulting claim. By the very nature of an insurance contract, this risk is random and therefore unpredictable. The principal risk that the Company faces under its insurance contracts is that the actual claims exceed the carrying amount of the insurance liabilities. This could occur because the frequency or severity of claims is greater than estimated. Insurance events are random, and the actual number and amount of claims will vary from year to year from the level established.

Based on past experience, management is of the view that the larger the portfolio of similar insurance contracts, the smaller the relative variability about the expected outcome is. In addition, a more diversified portfolio is less likely to be affected by a change in any subset of the portfolio. The Company has developed its insurance underwriting strategy to diversify the type of insurance risks accepted and within each of these categories to achieve a sufficiently large population of risks to reduce the variability of the expected outcome.

Factors that aggravate insurance risk include lack of risk diversification in terms of type and amount of risk, geographical location and type of industry covered.

## NOTES TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2025

### (a) Frequency and severity of claims

Political, environmental, economical and climatic changes give rise to more frequent and severe extreme events (for example, fire, theft, steal, riot and strike, explosion, earthquake, atmospheric damage, hurricanes, typhoons, river flooding, electric fluctuation, terrorism, war risk, damages occurring in inland transit, burglary, loss of cash in safe and cash in transit, travel and personal accident, money losses, engineering losses and other events) and their consequences (for example subsidence claims). For certain contracts, the Company has also limited the number of claims that can be paid in any policy year or introduced a maximum amount payable for claims in any policy year.

Insurance contracts which are divided into direct and facultative arrangements are further subdivided into five segments: fire, marine, motor, accident and health and miscellaneous. The insurance risk arising from these contracts is concentrated in the territories in which the Company operates, and there is a balance between commercial and personal properties / assets in the overall portfolio of insured properties / assets. The Company underwrites insurance contract in Pakistan.

The Company manages these risks through its underwriting strategy, adequate reinsurance arrangements and proactive claims handling.

The underwriting strategy attempts to ensure that the underwritten risks are well diversified in terms of type and amount of risk, industry and geography. The Company has the right to re-price the risk on renewal. It also has the ability to impose deductibles and reject fraudulent claims. Insurance contracts also entitle the Company to pursue third parties for payment of some or all costs (for example, subrogation). The claim payments are limited to the extent of sum insured on occurrence of the insured event.

The Company has entered into reinsurance cover / arrangements with local and foreign reinsurers having good credit rating by reputable rating agencies, to reduce its exposure to risks and resulting claims. Keeping in view the maximum exposure in respect of key zone aggregates, a number of proportional and non-proportional facultative reinsurance arrangements are in place to protect the net account in case of a major catastrophe. The effect of such reinsurance arrangements is that the Company recovers the share of claims from reinsurers thereby reducing its exposure to risk. Apart from the adequate event limit which is a multiple of the treaty capacity or the primary recovery from the proportional reinsurance arrangements, any loss over and above the said limit would be recovered under non-proportional treaty which is very much in line with the risk management philosophy of the Company. In compliance of the regulatory requirement, the reinsurance agreements are duly submitted with Securities and Exchange Commission of Pakistan on an annual basis.

The Company has claims department dealing with the mitigation of risks surrounding claims incurred whether reported or not. This department investigates and settles all claims based on surveyor's report / assessment. The unsettled claims are reviewed individually on a periodic basis and adjusted to reflect the latest information on the underlying facts, contractual terms and conditions, and other factors. The Company actively manages and pursues early settlements of claims to reduce its exposure to unpredictable developments.

### (b) Sources of uncertainty in the estimation of future claim payments

Claims reported and otherwise are analyzed separately. The development of large losses / catastrophes is analyzed separately. The shorter settlement year for claims allows the Company to achieve a higher degree of certainty about the estimated cost of claims including IBNR. However, the longer time needed to assess the emergence of a subsidence claim makes the estimation process more uncertain for these claims.

The estimated cost of claims includes direct expenses to be incurred in settling claims, net of the expected subrogation value, reinsurance and other recoveries. The Company takes all reasonable steps to ensure that it has appropriate information regarding its claims exposures. However, given the uncertainty in establishing claims provisions, it is likely that the final outcome may be different from the original liability established. The liability comprises amount in relations to unpaid reported claims, claims incurred but not reported (IBNR), expected claims settlement costs and a provision for unexpired risks at the end of the reporting year.

Liability in respect of outstanding claims is based on the best estimate of the claims intimated or assessed. In calculating the estimated cost of unpaid claims (both reported and not), the Company estimation techniques are a combination of loss-ratio-based estimates (where the loss ratio is defined as the ratio between the ultimate cost of insurance claims and insurance premiums earned in a prior financial years in relation to such claims) and an estimate based upon actual claims experience using predetermined basis where greater weight is given to actual claims experience as time passes.

In estimating the liability for the cost of reported claims not yet paid, the Company considers any information available from surveyor's assessment and information on the cost of settling claims with similar characteristics in previous years. Claims are assessed on a case-by-case basis separately.

## NOTES TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2025

Particulars	Total amount	Age-wise Breakup

(c) **Key assumptions**

The principal assumption underlying the liability estimation of IBNR and Premium Deficiency Reserves is that the Company's future claim development will follow similar historical pattern for occurrence and reporting. The management uses qualitative judgement to assess the extent to which past occurrence and reporting pattern will not apply in future. The judgement includes external factors e.g. treatment of one-off occurrence claims, changes in market factors, economic conditions, etc.

(d) **Changes in assumptions**

The Company did not change its assumptions for the insurance contracts as disclosed in above (b) and (c).

(e) **Sensitivity analysis**

The risks associated with the insurance contracts are complex and subject to number of variables which complicate quantitative sensitivity analysis. The Company makes various assumptions and techniques based on past claims development experience. This includes indications such as average claims cost, ultimate claim numbers and expected loss ratios. The Company considers that the liability for insurance claims recognized in the balance sheet is adequate. However, actual experience will differ from the expected outcome.

As the Company enters into short term insurance contracts, it does not assume any significant impact of changes in market conditions on unexpired risks. However, some results of sensitivity testing are set out below, showing the impact on profit before tax net of reinsurance.

	Profit before tax		Shareholders' equity	
	2025	2024	2025	2024
Rupees in thousand				
<b>10% increase in loss</b>				
Fire and property damage	(3,635)	(3,356)	(2,217)	(2,047)
Marine aviation and transport	(4,337)	(3,207)	(2,645)	(1,957)
Motor	(21,709)	(22,751)	(13,242)	(13,878)
Health	(39,247)	(33,601)	(23,941)	(20,496)

	(75,302)	(67,267)	(45,933)	(41,033)

A 10% decrease would have had equal but opposite effect on the profit and loss account and shareholders' equity.

**Cash flow sensitivity analysis for variable rate instruments**

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, to the Company's profit before tax and equity based upon closing balances and rates:

December 31, 2024	100	5,433	3,640
	(100)	(5,433)	(3,640)

(f) **Concentration of insurance risk**

A concentration of risk may also arise from a single insurance contract issued to a particular type of policyholder, within a geographical location or to types of commercial business. The Company minimizes its exposure to significant losses by obtaining reinsurance from a number of reinsurers, who are dispersed over several geographical regions.

To optimize benefits from the principle of average and law of large numbers, geographical spread of risk is of extreme importance. There are a number of parameters which are significant in assessing the accumulation of risks with reference to the geographical location, the most important of which is risk survey. The concentration of risk by type of contracts is summarized below by reference to liabilities.

The procedures selected depend on our judgment, including the assessment of the risks of material non-compliance with the Takaful Rules, 2012, whether due to fraud or error. In making those risk assessments, we have considered internal control relevant to the Takaful Operations compliance with the Takaful Rules, 2012, in order to design assurance procedures that are appropriate in the circumstances, but not for the purposes of expressing a conclusion as to the effectiveness of the Company's internal control over the Takaful Operations' compliance with the Takaful Rules, 2012. A reasonable assurance is less than an absolute assurance.

A system of internal control, because of its nature, may not prevent or detect all instances of non-compliance with Takaful Rules, 2012, and consequently cannot provide absolute assurance that the objective of compliance with Takaful Rules, 2012, will be met. Also, projection of any evaluation of effectiveness to future periods is subject to the risk that the controls may become inadequate or fail.

**The procedures performed included;**

- Evaluate the systems, procedures and practices in place with respect to the Takaful operations against the Takaful Rules, 2012 and Shariah Advisor's guidelines;
- Evaluating the governance arrangements including the reporting of events and status to those charged with relevant responsibilities, such as the Shariah Advisor and the Board of Directors;
- Test for a sample of transactions relating to Takaful operations to ensure that these are carried out in accordance with the laid down procedures and practices including the regulations relating to Takaful operations as laid down in Takaful Rules, 2012; and
- Review the statement of management's assessment of compliance of the Takaful transactions during the year ended December 31, 2025, with the Takaful Rules, 2012.

**CHARACTERISTICS AND LIMITATIONS OF THE STATEMENT**

a system of internal control, because of its nature, may not prevent or detect all instances of non-compliance with takaful Rules, 2012, and consequently cannot provide absolute assurance that the objective of compliance with Takaful Rules, 2012, will be met. Also, projection of any evaluation of effectiveness to future periods is subject to the risk that the controls may become inadequate or fail.

**CONCLUSION**

Our conclusion has been formed on the basis of, and is subject to, the matters outlined in this report. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.

In our opinion, the statement, for the year ended December 31, 2025, presents fairly the status of compliance of the Company with the Takaful Rules, 2012, in all material respects.

To the members of Askari General Insurance Company Limited - Window Takaful Operations

### Report on the Audit of the Financial Statements

#### Opinion

We have audited the annexed financial statements of Askari General Company Limited – Window Takaful Operations (the Operator), which comprise the statement of financial position of Operators Fund (OPF) and Participant's Takaful Fund (PTF) as at December 31, 2025 and the statement of comprehensive income, the statement of changes in operator's fund and participant's takaful fund and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of material accounting policy and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position of OPF and PTF, the statement of comprehensive income, the statement of changes in operator's fund and participant's takaful fund and the statement of cash flows together with the notes forming part thereof, conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Insurance Ordinance, 2000 and the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Operator's affairs as at December 31, 2025 and of the profit/surplus, total comprehensive income, the changes in Operator's fund and participant's takaful fund and its cash flows for the year then ended.

#### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Operator in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. Other information comprises the information included in the annual report, but does not include the window takaful operations, unconsolidated and consolidated financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with the audit of financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears

# ◆ YOUSUF ADIL

to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## **Responsibilities of Management and Board of Directors for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Insurance Ordinance, 2000 and the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Operator's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Operator or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Operator's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Operator's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Operator to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

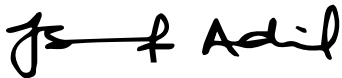

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Operator as required by the Insurance Ordinance, 2000 and the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of comprehensive income, the statement of changes in operator's fund and participant's takaful fund and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Insurance Ordinance, 2000 and the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Operator's business; and
- d) No Zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

The engagement partner on the audit resulting in this independent auditor's report is Shahzad Ali.

ASKARI GENERAL INSURANCE COMPANY LIMITED - WINDOW TAKAFUL OPERATIONS

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2025

---

Subsequent costs are included in the asset's carrying amount or recognised separate asset, as appropriate, only when it is probable that future economic benefits associated with the items will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance costs are charged to the profit and loss account in the year in which they are incurred. The gain or loss on disposal or retirement of an asset represented by the difference between the sale proceeds and the carrying amount of the asset is recognised as an income or expense.

### 3.2 Takaful contracts

Takaful contracts are those contracts where the Participants' Takaful Fund (PTF) has accepted significant Takaful risk from another party (the participants) by agreeing to compensate the participants if a specified uncertain future event adversely affects the policyholders.

Once a contract has been classified as a Takaful contract, it remains a Takaful contract for the remainder of its lifetime, even if the Takaful risk reduces significantly during this period, unless all rights and obligations are extinguished or expired.

The Operator underwrites non-life takaful contracts that can be categorised into Fire and Property Damage, Marine, Aviation and Transport, Motor, health and accident and Miscellaneous contracts. Contracts may be concluded for a fixed term of one year, for less than one year and in some cases for more than one year. However, most of the contracts are for twelve months duration. Takaful contracts entered into by the Operator under which the contract holder is another Takaful Operator (inwards retakaful) of a facultative nature are included within the individual category of takaful contracts, other than those which fall under Treaty. The takaful risk involved in these contracts is similar to the contracts undertaken by the Operator as takaful operator.

Fire and Property takaful contracts mainly compensate the customers for damage suffered to their property. Customers who undertake commercial activities on their premises could also receive compensation for the loss of earnings caused by the inability to use the covered properties in their business activities (business interruption cover).

Marine, Aviation and Transport class of business provides coverage against loss and damage to goods in transit by any means of conveyance, physical loss or damage to aircraft, ships, and liabilities to third parties and passengers arising from their use.

Motor takaful covers physical loss or damage to the vehicle and liabilities to third parties as provided under the requirements of the Motor Vehicle Ordinance, 1965.

All other takaful contracts like cash in hand, cash in transit, personal accident, infidelity, public liabilities, crop, livestock, travel, bankers and other financial institutions packages, product liabilities, professional indemnity, workers compensation etc. are included under Miscellaneous takaful cover.

### 3.3 Deferred commission expense Takaful contracts

Commission incurred in obtaining and recording are deferred and recognised as an asset. These costs are charged to the profit and loss account based on the pattern of recognition of contribution revenue.

### 3.4 Reserve for unearned contribution

The unearned portion of contribution net of Wakala fee is set aside as a reserve. Unearned Contribution determined as a ratio of the unexpired period of the policy and the total period, both measured to the nearest day, as specified in the Insurance Accounting Regulations, 2017.

### 3.5 Contribution deficiency reserve

The Operator is required as per the General Takaful Accounting Regulations, 2019, to maintain a provision in respect of contribution deficiency for the class of business where the unearned contribution reserve is not adequate to meet the

ASKARI GENERAL INSURANCE COMPANY LIMITED - WINDOW TAKAFUL OPERATIONS  
**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS**  
FOR THE YEAR ENDED 31 DECEMBER 2025

---

expected future liability, after retakaful recoveries from claims, and supplementary expenses expected to be incurred after the reporting date in respect of the unexpired takaful contracts in that class of business at the reporting date. The movement in the contribution deficiency reserve is recorded as an expense in the profit and loss account.

The Operator determines adequacy of liability of contribution deficiency by carrying out analysis of its loss ratio of expired period of contracts. The liability of contribution deficiency in relation to accident and health takaful contracts is based on actuary recommendation.

No provision has been made as the unearned contribution reserve for each class of business as at the year end is adequate to meet the expected future liability after retakaful from claims and other expenses, expected to be incurred after the reporting date in respect of policies in force at reporting date.

**3.6 Retakaful contracts held**

The Operator cedes retakaful in the normal course of business for the purpose of limiting its net loss potential through the diversification of its risks. Assets, liabilities, income and expense arising from ceded retakaful contracts are presented separately from the assets, liabilities, income and expense from the related takaful contracts because the retakaful arrangements do not relieve the PTF from its direct obligation to its policyholders.

**3.7 Outstanding claims including incurred but not reported (IBNR)**

The liability for IBNR is computed through Chain Ladder Method (Development technique) in light of the guidelines issued by Insurance Division of SECP vide its Circular 9 of 2016 dated March 09, 2016 for estimation of IBNR claims reserve, the liability for IBNR for all classes of business is based on actuary recommendation. Any significant change in assumption used event may affect the management's judgment which could affect the provision made for IBNR. Reinsurance recoveries against outstanding claims and salvage recoveries are recognized as an asset and are measured at the amount expected to be received.

**3.8 Amount due to / from retakaful operators**

Amount due to / from retakaful operators are carried at cost less provision for impairment, if any. Cost represents the fair value of the consideration to be received / paid in the future for services rendered.

**3.9 Segment reporting**

The Operator's operating businesses are recognised and managed separately according to the nature of services provided with each segment representing a strategic business unit that serves different markets.

**3.10 Cash and cash equivalents**

Cash and cash equivalents comprise cash and bank balances, stamps in hand and call deposits with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value, and are used by the Operator in the management of its short-term commitments.

**3.11 Revenue recognition**

The charge for current tax also include adjustments, where considered necessary, to provision for tax made in previous years arising from assessments finalized during the current year for such years.

**Deferred**

Deferred tax is accounted for using the balance sheet liability method in respect of all temporary differences at the balance sheet date between the tax bases and carrying amounts of assets and liabilities for financial reporting purposes. ASKARI GENERAL INSURANCE COMPANY LIMITED - WINDOW TAKAFUL OPERATIONS  
**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS**  
 FOR THE YEAR ENDED 31 DECEMBER 2025

The judgements, estimates and assumptions are based on historical experience, current trends and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the estimates about carrying values of assets and liabilities that are not readily apparent from other sources.

Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the revision and future periods if the revision affects both current and future periods.

\* The Operator has not disclosed the fair value of these items because their carrying amounts are a reasonable approximation of fair value.

Fair value is an amount for which an asset could be exchanged, or a liability settled between knowledgeable willing parties in an arm's length transaction.

Consequently, differences may arise between the carrying values and the fair values estimates.

The Operator measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

**36 MANAGEMENT OF TAKAFUL AND FINANCIAL RISK**

**36.1 Takaful risk**

The principal risk that is faced under takaful contracts is the possibility that the covered event occurs, the uncertainty of the amount of the resulting claims i.e. the frequency and severity of claims and that the actual claims and benefit payments exceed the carrying amount of the takaful liabilities. By the very nature of the takaful contract, this risk is random and therefore unpredictable. The objective of the Operator is to ensure that sufficient reserves are available to cover these liabilities.

The Operator manages these risks through its underwriting strategy, adequate retakaful arrangements and proactive claims handling. The underwriting strategy aims to minimize takaful risks with a balanced mix and spread of business classes and by observing underwriting guidelines and limits. The Operator underwrites mainly property, motor, marine cargo and transportation and other miscellaneous business. These classes of takaful are generally regarded as short-term takaful contracts where claims are normally intimated and settled within a short time span, usually one year. This helps to mitigate takaful risk.

Underwriting limits are in place to enforce appropriate risk selection criteria. For example, the Operator has the right not to renew individual policies, it can impose deductibles and it has the right to reject the payment of a fraudulent claim. For large risks, particularly in property segment of business, risk inspections are carried out before accepting the risks. Similarly, in case of large risks, annual renewals are also preceded by on-site surveys. Where needed, risk mitigation measures are identified and communicated to the clients to improve the risk to an acceptable level.

Retakaful arrangements in place include treaty and facultative arrangements, on proportional and non-proportional basis and also include catastrophe cover. The effect of such retakaful arrangements is that the PTF may not suffer ultimate net takaful losses beyond the PTF's risk appetite in any one year.

The Operator's arrangement of retakaful is diversified such that it is neither dependent on a single retakaful operator nor the operations of the Operator are substantially dependent upon any single retakaful contract. The Operator obtains retakaful cover only from companies with sound financial health.

**a) Frequency and severity of claims**

The frequency and severity of claims can be affected by several factors like political violence, environmental and economical, atmospheric disturbances, natural disasters, concentration of risks, civil riots etc. The Operator manages these risk through the measures described above. The Operator has limited its exposure to catastrophic and riot events by use of retakaful arrangements.

The Operator also monitors concentration of risk by evaluating multiple risks covered in the same geographical location. For fire and property risk a particular building and neighbouring buildings, which could be affected by a single claim incident, are considered as a single location. For earthquake risk, a complete city is classified as a single location. Similarly, for marine risk, multiple risks covered in a single vessel voyage are considered as a single risk while assessing concentration of risk. The Operator evaluates the concentration of exposures to individual and cumulative takaful risks and establishes its retakaful policy to reduce such exposures to levels acceptable to the Operator. The concentration of risk by type of contracts is summarized below by reference of liabilities.

**b) Sources of uncertainty in estimation of future claim payments**

The key source of estimation uncertainty at the balance sheet date relates to valuation of outstanding claims, whether reported or not, and includes expected claims settlement costs. Considerable judgment by management is required in the estimation of amounts due to policyholders arising from claims made under takaful contracts. Such estimates are necessarily based on assumptions about several factors involving varying and possibly significant degrees of judgment and uncertainty and actual results may differ from management's estimates resulting in future changes in estimated liabilities. Qualitative judgments are used to assess the extent to which past trends may not apply in the future, for example one-off occurrence, changes in market factors such as public attitude to claiming and economic conditions. Judgment is further used to assess the extent to which external factors such as judicial decisions and government legislation affect the estimates.

In particular, estimates have to be made both for the expected ultimate cost of claims reported at the balance sheet date and for the expected ultimate cost of claims incurred but not reported (IBNR) at the balance sheet date. The details of estimation of outstanding claims (including IBNR) are given under note 3.7.

**c) Key assumptions**

The principle assumption underlying the liability estimation of IBNR and Premium Deficiency Reserves is that the Company's future claim development will follow similar historical pattern for occurrence and reporting. The management uses qualitative judgement to assess the extent to which past occurrence and reporting pattern will not apply in future. The judgement includes external factors e.g. treatment of one-off occurrence claims, changes in market factors, economic conditions, etc.

**d) Changes in assumptions**

The Company did not change its assumptions for the insurance contracts as disclosed in above (b) and (c).

**e) Sensitivity analysis**

The Operator believes that the claim liabilities under takaful contracts outstanding at the year end are adequate. However, these amounts are not certain and actual payments may differ from the claims liabilities provided in the financial statements. The impact on the PTF surplus of the changes in the claim liabilities net of retakaful is analysed below. The sensitivity to changes in claim liabilities net of retakaful is determined separately for each class of business while keeping all other assumptions constant.

**36.2 Financial risk**

The Operator's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (comprising of currency risk, profit rate risk and other price risk). The Operator's overall risk management policy focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Operator's financial performance.

The Board of Directors has overall responsibility for establishment and over sight of the Operator's risk management framework. There are Board Committees and Management Committees for developing and monitoring the risk management policies.

**36.3 Credit risk**

Credit risk is the risk, which arises with the possibility that one party to a financial instrument will fail to discharge its obligation and cause the other party to incur a financial loss. The management monitors exposure to credit risk through regular review of credit exposure, undertaking transactions with a large number of counter parties in various industries and by continually assessing the credit worthiness of counter parties.

Concentration of credit risk arises when a number of counterparties have a similar type of business activities. As a result, any change in economic, political or other conditions would affect their ability to meet contractual obligations in similar manner. Due to the nature of financial assets, the Operator believes it is not exposed to any major concentration of credit risk.

**36.4 Liquidity risk**

Liquidity risk is the risk that the Operator will encounter difficulty in meeting its obligations associated with financial liabilities. In respect of major loss event, there is also a liquidity risk associated with the timing differences between gross cash outflows and expected retakaful recoveries.

The objective of the Operator's liquidity management process is to ensure, as far as possible, that it will always have sufficient liquidity to meet its claim and other liabilities when due under both normal and stressed conditions without incurring unacceptable losses or risking damage to the Operator's reputation. It includes measuring and monitoring the future cash flows on daily, monthly and quarterly basis, maintaining sufficient cash reserves in bank accounts and a portfolio of highly marketable financial assets that can be easily liquidated in the event of an unforeseen interruption to cash flows.

The table below provides the maturity analysis of the Operator's liabilities as at balance sheet date. The contractual maturities of these liabilities at the year end have been determined on the basis of the remaining period at the balance sheet date to the contractual maturity date. Financial liabilities not having a contractual maturity are assumed to mature on the expected date on which these liabilities will be settled.

## ASKARI GENERAL INSURANCE COMPANY LIMITED - WINDOW TAKAFUL OPERATIONS

# NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

### FOR THE YEAR ENDED 31 DECEMBER 2025

#### Cash flow sensitivity analysis for variable rate instruments

The Operator is exposed to cash flow profit rate risk in respect of its cash and bank balances and Sukuk bonds. In case of 100 basis points (bp) increase / decrease in profit rates at period end, assuming that all other variables remain constant, the net income and accumulated profit would have been higher / lower approximately by Rs 0.65 million (2024: Rs 0.31 million) in Operators' fund. Similarly, in case of Participants' Takaful Fund the net income and balance of Waqf / PTF would have been higher / lower approximately by Rs 0.85 million (2024: Rs. 2.68 million).

#### 36.7 Price risk

Price risk is the risk that the fair value or future cash flows of financial instrument will fluctuate because of changes in market prices (other than those arising from profit rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

The following table summarises the Company's price risk as at December 31, 2025 and 2024. It shows the effects of an estimated increase of 10% in the market prices as on those dates. A decrease of 10% in the fair values of equity securities would affect it in a similar and opposite manner.
